We have knowledge, which contains about 1000 pages of new information. Which explains everything about life and a detailed description how to solve all problems in your life, which is unknown to the humans on this moment! We show you below examples of this unknown information. So you can decide and judge for yourself!

Now, probably you will ask yourself: *"Listen friend, if you know this information, than you need a source?". "From whom or where, did you get this information?"* Logical questions, we explain more about the Source!

The author is a very ordinary 46-years-old man. His profession on this moment: Cellular Energy Healer, Coach, Medium, and now also an Author. The only odd thing about him is, that he had his whole life paranormal experiences. He learned to communicate with his spirit guides. The author was very interested in finding the Truth about Life and 1,5 years ago, the spirit guides started to inform him about this knowledge and he wrote it down as a medium. First in his native language. And later he upgraded the book with our guidance in the English language. The spirit guides told him this information, because he could hear them and could write it down!

We understand that humans, don't like to find new information about life in a common person, even one who claims to hear it from spirit guides. You call him crazy, unreal, floating, etc. It would be better for you, to find these words in a cave, written on a mystical document in an old language with symbolic and cryptical statements. Than you can believe it more easier, that it contains the truth! We inform you to read the pdf completely, without judging. If you read the pdf completely we promise you, that your eyes will be opened more, than they ever were. If you start to do the exercises we give you, you will be confused, that other people don't understand this knowledge. It seems logical and simple and still humans don't see and don't understand it. You will be amazed, we promise! Seeing is still believing.

First you will be confused and than astonishing amazed about the knowledge in this pdf. Even when you are an atheist, agnostic, religious, spiritual or just a person who is looking for answers about life. We give you only the truth, nothing more and nothing less! Our information is for all people in the world! Please, just wait with judging and approving or disapproving. Just read the whole pdf and than decide for yourself, what you want to believe. We just want to help all the people in the world. And we start with you! Just be patient, and read it step by step. Thanks.

The main reason for the spirit guides to give you the complete description of life, is to prevent suffering for all people in the world. The spirit guides can see the most probable outcome of your future. And on this moment, that is the apocalypse. First the planned economical crisis will figuratively explode, and than there will be a new and last World War. This war will create, so much negativity in your world, that nature will intervene and create balance on earth again. By destroying the human race above and under the ground with a natural event! Because, the humans have unbalance in themselves, unbalance between each other and unbalance with nature and created too much negativity instead of positivity. This will create unbalance also in the apparently material dimension and this cannot exist! Civilizations and complete human races were destroyed before by nature, for the same reasons.

More important than the apocalypse, is the question: How can the humans prevent the apocalypse from happening? To prevent the apocalypse, you need to make the biggest choice in your human existence! That is why, the astrology describes this time as the big change on earth and that is the truth! That is also, why almost all religions, scriptures, prophets and monuments describes this coming event as a possible outcome in our future. And we approach this future very soon!

THE ONLY CHOICE THE HUMAN RACE HAS TO SURVIVE:

A. When we keep our ego perspective at life the same, the apocalypse will happen!

B. When we change our ego perspective, which we have created in our ratio, into the higher perspective of the Soul, than we can prevent the apocalypse from happening.

Below we will explain the terms used in our choice, A and B. And later in the pdf, we will give examples of the ego perspective, so you can recognize it! We start with the basics and work our way unto the daily experiences of the ego perspective. You will understand everything, be patient and read everything. You will be amazed!

The ego perspective is how a person thinks about life. Over thousand of years you have created this false, negative and destructive ego perspective in your ratio. Because, you can't manage your fears, your worries and your greed! You believe really that your perspective at life is the real, good and true perspective. But your ego perspective is completely based on greed, and creates all the time negative emotions and negative decisions. This pulls the person out of balance, this pulls the people between each other out of balance and it pulls also the humans with nature out of balance. There are all logical reasons for this statement.

To explain a book of 1000 pages in about 21 pages is rather difficult. But we try, to explain the most important issues to you, on a simple and detailed manner! So you can understand a part of the complete construction of your life!

The Soul is an awareness and individual eternal energy being, your life-force. If the life-force energy is not in your body, your body and mind (human) is dead. When the life-force energy (Soul) is inside you, you are a human being! Listen well to the word being! Your Soul is pure positivity! No person, has a Soul, everyone is this Soul!

How can you know that a Soul exists? Very simple. When you feel 100% positive in yourself, you are, think, do, give and create 100% positive energy, than you are completely in balance and very happy (As almost no person ever has experienced in life!). If you say a balanced person needs 50% negativity and 50 % positivity in him/herself to create balance, than you say that a balanced person is a person that feels 50% bad (negative), and 50% good (positive) on a day. This is nonsense! Balance for your Soul means 100% positivity and that is not from earth! Because, on earth balance is always 50% negativity and 50 % positivity, or two the same forces leveling each other out. The Soul is from the immaterial dimension, where only positivity exists. All the positive energy life-forces, including your Soul on earth, comes from this (only positive) immaterial dimension, and will go back to this dimension.

The apparently material dimension what includes, earth, planets, stars, black holes and in total the universe, is completely based on positivity and negativity. Positivity and negativity in your dimension (earth) can create the positive and negative molecules and can create therefore an apparently material on earth! Your scientists already know, that material doesn't exist on earth. And this is very logical! Everything is build from energy. You live therefore in an apparently material world! It is just an interpretation of energy. Therefore you can know, that the immaterial dimension is more real, than the material dimension. Life is perfected in simplicity.

And the answers for the construction of life are not found in the material dimension, but in the immaterial dimension, combined with the apparently material dimension. We go very fast, we apologize. But to put 1000 pages in 21 pages is not easy. But we try to do our best, and that is all we can do. In our book we go slowly through all steps and we will prove all the statements are correct and very logical.

The immaterial dimension is based on only positivity. Then we have another dimension, we call the In-Between dimension and here "only positivity" can exist and also "positivity and negativity" can exist here. The In-Between dimension is needed to connect the apparently material dimension, with the immaterial dimension. That is how the life-forces, as positive energy, can switch from the immaterial dimension into the apparently material dimension. That is how your Soul can descend into your body and mind. And other life-forces of lower awarenesses descend in plants, trees, one celled organism, etc. We will explain in our book, that we use this In-Between dimension every day, with our visualization, imagination and even in our dreams and astral traveling. More about this, you can find in our book. There are many more dimensions, but they are not important to understand the construction of life.

By the way; a negative dimension does not exist. And for a very simple reason. There is no reason to create an only negative dimension, this will unbalance all the dimensions, and that is beyond logic. And the most intelligent being in the immaterial world (We know), does not create this and will never do. Only humans create more negativity than positivity and are the most disappointing hosts ever. And we really hope one day, they really learn how to create more positivity than negativity!

The apparently material dimension is created to use positivity and negativity to create more positivity. For example to explain this a little bit better. If you pull an arrow on a bow a little bit and use a little bit of energy, the result is that the arrow flies just a few meters away. When you use a lot of energy to pull the arrow, than it can fly away over 100 meters. How more difference we can create between a negative and a positive situation, how more positive energy we need to overcome this negativity in life and how more positive energy we automatically create! In the end your negativities as Lessons of Life have the goal to let you create more positive energy in life. A completely negative dimension has no use at all, and doesn't exist!

Therefore a devil, demons and hell, as you know it, don't exist. This is created by the ego perspective who thinks, that the negativity and positivity on earth exists everywhere. But this is not true! There are in the In-Between lost Souls, with negativity in their ego perspective. Who have studied in their lives for example: black magic, voodoo, demons, satan and hell and makes it real for themselves in the In-Between dimension. You can instantly create here everything you imagine. When you dream a part of your consciousness, will go into the In-Between and you can create the most strangest things and really experience them as real. People who control this dreaming in this dimension, we call lucid dreamers. The lost Souls in the In-Between look like evil spirits and in very rare occasions, they manifest something in our world. The church is aware of these manifestations. We should help the lost Souls to find their way to heaven too. But, that is another story. Don't forget your positive Soul is much stronger, than a Soul with negative thoughts. Love as positive energy always wins from evil, you know this. So don't worry, have fun and enjoy life!

Conclusion: What we want to tell you, is that your Soul is real and is originated from the immaterial dimension and will in the end (When you pass over, die) go back to this dimension through the In-Between dimension. Where you work at your negative decisions, thoughts and actions in life. When you become your pure positive Soul again, than you can enter the other immaterial dimension, we call heaven. It is as simple as that. Perfected in simplicity! It is just a matter to connect the dots properly.

There is only one choice you can make on earth. Do you want to work at your ego perspective on earth and get rid of it and become your Soul? Than you can enter heaven directly. Beautiful isn't it. Does everyone will be forgiven? Yes, you will have to forgive yourself. And as Soul you want to learn your lessons. That means as Soul you embrace negativity in life with positivity and create more positivity. That is life!

When you die, you will go as your Soul and you take your Karma with you. Your karma is filled with all negativity of your ego perspective. No one can escape this kind of "justice", however it is just a list to make sure, that you will receive all the unlearned lesson in your next life again. Because, learning from our Lessons of Life will create more positive energy! That is why we have to learn our Lessons of Life!

You will have a problem, when you pass over, and your Soul has the negativity from the ego perspective still around the Soul. The Soul is normally pure positive energy and if you still have your ego perspective, when you pass over, the outer layer of the Soul is negative. And you have to work in the In-Between at the negativity you thought, did and created in life on earth. By changing them all into positive decisions and creations. Because you can enter only the other immaterial dimension again, when you are completely positive. We call this other immaterial dimension, Heaven. And now you understand that you can only enter Heaven, if you are completely positive. No sleeping for you, if you pass over, you have to work again. The best way is to Learn your Lessons of Life (negativities) on earth. By changing the negativities into positivities and than you don't have to work in the In-Between. And you can go directly to heaven. Do you see, how beautiful and simple life is constructed. We explain in our book, what exactly will happen when you pass over (die) and how you will experience dying in phases.

Before you are born, the Soul descends in your body and mind. If you are completely your Soul in your awareness, than you will know always to think and do the right positive actions. And the experience, learning effects and even new creations will always be good and positive. Real creation of positivity happens by experience negativity and use a lot of positivity to overcome this negativity and that will create more positive energy in our apparently material world. And more positive energy, means that the immaterial dimension will flourish and expand. That is reason for your Soul to experience negativity on earth. Normally, the Soul has before it entered your body made a figuratively "Red Line in Life" with negativities to learn from. Because the Soul wanted to give itself, some negativities in life to create positivity. Not aware that the humans create for themselves already very much negativity! And so your lives are filled with negativity. If you learn your lessons well and for example prevent the apocalypse, you could create an enormous amount of positivity in the world. If you are willing to change your ego perspective in the higher perspective of your Soul. In other words to let go of your ego perspective and embrace your Soul.

In our book we will explain this with examples to make it all more clear. The Soul doesn't want to remember previous experiences of the Soul's life. So the Soul's awareness split itself in a conscious awareness, your awareness you have right now and a bigger subconscious awareness, which is settled in your subconscious. Your awareness is the conscious part of your Soul, that starts at birth at zero. But still the Soul is in line, and therefore young children can remember past lives, can see spirit friends (We call them "imaginary friends".) or even their spirit guides or other spirits (former parents, sisters, etc who are checking if the Soul is doing all right in this life). The immaterial world is more real, than our apparently material world! It is not an imagination or an idea, no understand us, it is a fact of life! Connect all the dots on the right way and you will understand the construction of your lives! In our book we will explain more about this, and give you also personal examples.

The human (body and mind) is created to host the Soul. Therefore the scientists can't find a decision maker in your brain, because it is the conscious part of the Soul, who decides and moves body parts. The scientists can only find the interpretation of the execution of a decision. And that is logical, your body and mind are a tool for your awareness, your Soul to use. Try to talk to your arm to go up, it won't. Try to think to move your arm up, with your mind, it will not go. Just move your arm up and it will go. We don't do the movements of our body parts with our mind, but with our Soul. When you have thoughts to do something, your conscious part of your Soul will do it. The conscious part of your Soul is the driver of your human body and mind!

Now we will describe your biggest problem in your life! You are taught by your parents, friends, teachers and yourself your ego perspective in your ratio. This is how you see the world as real and what you believe is real. You have created a perspective of what you think is right, good and true! You don't realize that over many years, you based this ego perspective on greed and to control to prevent negative emotions and you even use negativity to solve your problems, and therefore you create only more negativity in the world. The vicious circle of negativity. You see the material world, as if it is the real world and you are looking therefore only at the surface of life, the symptoms in life. Because you cannot see the real immaterial construction of life.

The ego perspective influences constantly the conscious part of your Soul negatively. Metaphorical you can say, the ego perspective is sitting in your lap and drives the human mind with your ratio. And this is why, people can do very negative actions in life, which a Soul would never do. Your body and mind are completely made for your Soul and a World of Souls and not for your present world, where the ego perspective is "King". The ego perspective is responsible for the dangerous, cruel, manipulative world humans have created.

There are five guidances as signals to guide you back in line with your Soul. Over thousands of years, you have lost contact with them. Those are: your emotions, your pains and illnesses in your body, your conscience (your direct voice of your subconscious part of your Soul), your aura and as last the signals in life. Those five signals are guiding you always, to make the right positive decisions in life to guide you back in line with your pure positive Soul, so you become balanced again.

That is why your conscious part of your Soul is influenced by your ego perspective in your ratio to do negative things like: lying, manipulating, cheating, stealing and even killing. Do you see what the ego perspective does to the human beings? You make a part of your pure positive Soul, thinking and doing negative things! And this will create automatically negative emotions and you feel bad. Because it is a signal to guide you back in line with your pure positive Soul. It is as simple as that.

The ego perspective is completely based on greed. And makes decisions only on greed, and will create negative thoughts. And these negative thoughts, creates negative emotions like: disappointment, frustration, anger, fears, worries, etc. We will describe most of them in our book. All these negative emotions are telling you, that you have negative thoughts, what is not good for you and/or for other people in the world, or even for nature. To learn we should find these negative thoughts and change them into positive thoughts. And that is how you be in line with your pure positive Soul. And when you are, you will experience positive emotions like happiness, enjoyment, optimism, etc. Emotions are guidances, to be your Soul!

The ego perspective is based on greed and it happens all the time in almost everyones lives. But we don't understand it. Look at life, at TV and every time, you see a person with a negative emotion, that person feels bad/ negative. Because that person cannot get what he/she wants! Beneath we will give you more examples!

When you are your Soul, you don't experience: fears, worries and negative emotions. Because you base all your decisions on the ground rule of the Soul. Decisions should be good for you AND for all other people in the world AND for nature. This is the only way to create balance in you, balance between all people in the world and balance with nature. It is as simple as written here to create balance.

The only choice humans have to prevent the apocalypse:

Is to change this ego perspective into the higher positive perspective of the Soul. To be your Soul completely and let the negative and destructive ego perspective go. The world needs urgently more Souls, to create more positivity than negativity.

To help the humans to change rapidly, is only possible in this time, with a complete written guide! We call our book therefore "The Spiritual Bible", 2015. We chose the word "Bible" because it explains: that the book will tell you everything what there is to know about life. We tell you everything you need to know to solve all your problems in life. And we guide you to let go of your ego perspective and to embrace your Soul. And you can finally be the Soul, you always were, are and will be! We chose the word "Spiritual; because, atheists, agnostic, spiritual, religious and all other people are all spiritual beings and don't have a Soul, but are a Soul! We think therefore "The Spiritual Bible", 2015 is the correct title for our book that can Guide you through life! It will be always your choice, if you want to change or not!

We hope to have explained the basics above well. We inform you only about the honest truth, nothing more and nothing less. Beneath, we go deeper into your experiences of the ego perspective in your daily life. Everything will become very clear for you. Just keep on reading.

"The Spiritual Bible", 2015 is the book to guide the individuals on the path to enlightenment. Because if you are your Soul, you will have no fears, no worries, no negative emotions, you feel happy and positive all the time, you have an easy, "Light" and simple life. And as Soul you can create anything you desire in life. We teach you the creation abilities in our book. And of course, why this is possible! We can really influence our own future and determine our future by creating our design.

The change of humans from the ego perspective in their ratio, into a Soul, starts in and with you, the individual! When you choose to change and follow our book, you will go the path to enlightenment on an easy and simple way. Just read the book and do all exercises and you will become your Soul and gain the higher perspective of your Soul. Perfected in simplicity!

The next step for the humans is to create balance with nature again. And this is a very big step and a very big change. We are writing on this moment also Part II of the trilogy, "The New World of Souls". See below for the explanation of this book. In short, we show you how we can create our present world into a New World of Souls. A world, which peace, harmony, real democracy and help for everyone! The change of our world into a New World of Souls needs, a large group of humans who became their Soul and wants to cooperate with us. In this book we will explain everything in phases to really change our present world into this New World of Souls.

The knowledge of these two books are offered to the humans by the spirit guides, to help you to change yourselves and your future. But it will all depends on the decisions the individual human being will make, with his or her free will. How more humans will change, how better our world will become. And we can prevent suffering for all people in the world from the apocalypse. And now, you understand perhaps, how important it is to spread this information world wide!! Help us, to help you!

By the way, the Author is not religious!, the author is just very interested in the real truth about Life! And he searched for answers in his life and now he got them from the spirit guides! They taught him, how life is really constructed. If you want to understand the real construction of life, you have to understand the apparently material world is created by the immaterial world. The immaterial world is real! We will prove this to you in our book completely and give below a preview to think about!

We will prove to you that an intelligent energy being, we call God, really exists in the immaterial dimension. We will explain that the immaterial dimension really exists, and even your pure positive Soul exists. **And it will make all sense to you, because it is logical!** The immaterial world is more real, than our apparently material world. Therefore humans can't explain, for example: the causality between thoughts, emotions and feelings and many other problems in life. Because they are blinded by the falsely taught ego perspective in their ratio. We explain more about the ego perspective and the real causality of thoughts, emotions and feelings below.

If you think that this information was never known before, you are wrong. Jesus and others spoke about this knowledge we are describing to you in our book. And for fun, the author has interpreted the words of Jesus Christ in the Gospel of Thomas. And we can see that the evolution of the apparently material world changes over time, but

the understanding of the apparently material and immaterial construction of your lives will always remain the same. The author tried to understand the words of Jesus before he wrote the book, he couldn't. After writing the book, he interpreted all lines of the Gospel of Thomas in about 16 hours with ease and fun. And it was for him an amazing experience, because all information lined up with the words, which were written in our book: "The Spiritual Bible, 2015". Jesus knew the same knowledge we are telling you also in our book. Only we wrote it in simple and easy words, so you can understand it very easily. And for free, we have enclosed the New interpretation of these words below. Just to let you know that humans knew this, but never used it!!

Now, you probably understand why we did not open our pdf to you, with the title of our book. Our book is **for everyone** to read and to understand. And therefore we ask you to spread the existence of this knowledge to everyone you know. Than one day, not long from this day, the book will be in the stores and you can read it and learn how to change yourself and your life. If you choose to change! Choose well!

The only thing we ask from you on this moment, is to spread the existence of this book around the world. If you can translate this pdf and send it to other countries, please, feel free to do so. All help, is necessary and welcome! It is important, that all people in the world know, that this manuscript, with unknown knowledge exists.

Before you judge us! Open your mind, and read the pdf completely and slowly! Just listen, to what we have to tell you and let yourself be informed!

New Truths of Life, in our book we describe about 100 New Truths of Life!

There are no bad and good people in life, there are only people on the right positive path and there are people deviated from the right positive path! Yes, yes, you know, but do you really live by it and coordinate your direction in life, based on positivity?

When you look at differences in each other, you will divide yourselves. When you look at what you have in common, you will connect with each other and evolve. Yes, yes, you know, but do you really live by it and have no prejudgements and love other opinions of others, without getting upset, when they think, act or say differently?

There are five signals to guide you back in line with your pure positive Soul and that are your: emotions, pains and illnesses in your body, aura, conscience and signals in life. We teach you to see and understand these signals and to use them correctly!

Your ego perspective is taught unaware by your parents, others and yourself in life. This ego perspective has a negative perspective at life and creates more of the same. As humans you believe this ego perspective, is the true perspective at life. Metaphorically we can say: You still believe the earth is flat! The Soul is suppressed by your ego perspective and therefore you choose more for negativity than positivity in life and even in the world. We will prove this to you with daily situations below.

DO YOU BELIEVE THESE STATEMENTS:

Marriage and relationships have good and bad times! Life has ups and downs. Life is full of good and bad people. Right is not always right. There are more truths in life. Negativity and positivity in our lives creates balance. The world has negativity, but much more positivity. We should focus only on positivity and not focus on negativity, to become happy. Good people go to heaven, bad people go to hell. Some are lucky in life and some are not. To think negative or neutral will make the outcome more positive. If you have money, possession and power, you are successful and happy. Our body and mind is who we are. We should be glad when our family is doing all right. We have only this one life! Etc. THESE STATEMENTS ARE ALL INCORRECT!

All above statements are WRONG and we will prove it to you, in our book. And the statements belong all to your ego perspective ! An ego perspective what studies and sees only the symptoms in the surface of life, because it doesn't understand the real construction of life. People are just accepting negativity, instead of solving negativity, by changing it in positivity! That is the only way, to learn from the Lessons of Life! You have taught yourselves to look the other way, and let the negativity exist in life. You have created these statements and you are believing them. And the humans never started to solve the negativity in life, by changing them into positivity. The ego perspective doesn't learn in life, it creates only more negativity in life. Look at the world and realize that the world is getting every day more negative. It will escalate!

About 99.7 % of all people have this ego perspective in their ratio and is based on greed. You are living your lives and focussing constantly to get what you want. And when you don't get what you want, you get upset. And you will experience negative emotions. Negative emotions are always and only guiding you to change your negative thoughts in positive thoughts. But you don't understand the function of your emotions! Do you need some examples to prove this to you? Here they come:

1. A little boy plays in kindergarden with his toy, what he has got from his parents. Another boy comes along and takes it away. The little boy feels bad. Start to cry, scream, will raise voice and say: "Give it back to me, it is mine" (negative thoughts), starts to hit, etc. The boy can't get, what he wants and gets upset. We taught the boy that the toy is his possession. We taught him that form of ego perspective. Instead of teaching him to enjoy sharing the toy, enjoying another boy to enjoy the toy too. (Positive thoughts). Etc. Mostly we give the toy back and say: "That is yours, he should not have taken it from you!", and you are still feeding the ego perspective. And the most shocking thing in life is, you all never grew up! You act still like children with your ego perspective. That is why, you all experience negative emotions! Negative emotions are always created by negative thoughts. A Soul is a grown up, and has only positive thoughts! A few other examples, it will open your eyes! This is more serious than you will expect! Be aware, your life will never be the same again!

2. The boyfriend brakes up with his girl. She feels sorrow, cries and gets angry. Because she wants to keep the boyfriend for herself, she can't get, what she wants. Instead of understanding that all individuals in life should decide for themselves, and she should accept the fact, that the boyfriends wants another experience in life. A relationship can only exist, if two persons really want to spend time together!

3. The children do not act or say what the parent want, the parent feels frustrated. irritated, raise voice or even become angry. A daily example! The parent should understand that the children are individuals too. And the parent should only inform and ask a child, and be that what they ask from their child, and give the same to their child. If you want your children to do more for you, do more for the child and do more for other people in life. If you want them to respect you, respect them and respect all other people in life. What you want to create in life, be that and give that to others.

4. The woman gets upset, because her husband doesn't act, say or does, what she wants him to do! Remember that even in a relationship, you are still both individuals and make your own choices and decide for yourself. You can only inform another and ask something, that is the only way to communicate properly. Never tell another person/ child what to do, think or how to act. Be that and give that and you will create it. And give space to individuals to make a mistake or to think differently than you. Create balance in yourself, by working only at yourself and not at others! Others have to work at themselves. This is the way to create harmony in your relationships.

5. A man sees his girlfriend intensively talking to another guy, he feels jealousy. He wants her for himself. The Soul will enjoy, his girlfriend to get attention and positivity from others. As long as the girlfriend is happy, he is happy. And when one day she decides to have a new experience, he will be supportive. When you are together based on love, separate also with love. Be a grown up. And you will be awakened!

6. You could not get the promotion, the success or grade you wanted. You feel disappointed, sad, etc. Instead of accepting the fact as it is. And focus your mind on the future positive possibilities. Maximize your positive thoughts and minimize your negative thoughts to zero. Positive thoughts will always make you feel happy and negative thoughts will always make you feel bad. Choose well!

7. You are fired. You are upset and feel despair, sorrow, disappointment, fears, etc. Because you wanted to keep your job and security and now you have lost it. etc. The ego perspective likes control and want to keep positivity in his life, no matter what. We should embrace negativities in our lives, to learn from, how to become more positive. That are the real Lessons of Life, and if you don't learn your lessons, more negativity will come into your life. Focus on positivity in your life, and create more positivity in your life automatically. In our book we teach you all creation possibilities.

Exercise: Look at the examples again and see that the greed of the person always creates the negative emotions! And this happens constantly in everyones life!!

There is a lot to be said more about above examples. We have given detailed explanations what to do in all cases in our book. Remember that negative emotions shows you that you want something you can't get. And this is always based on

negative thoughts AND GREED!. Find the negative thoughts and change them in positive thoughts. It is as simple as this, to be always positive and happy!

Your ego perspective will say to the above examples. But, that is logical! And we tell you: "No, it is not logical, it is childish". Children have to learn in life, but we learned them, showed and taught them, the wrong negative thoughts, the wrong negative ego perspective at life. When you feel bad, or see someone feeling bad, you or they can't get what they want. Based on negative greedy thoughts. Change them into positive thoughts, what is good for you AND for others and this will make you feel Good! We tell you nothing else, than the honest truth, nothing more and nothing less.

One of the about 100 unknown, New Truths of Life we present in our book !

All negative emotions in our lives are created, because we want something and we get upset, because we can't get it. We limit our thoughts with negative thoughts and that creates negative emotions and gives you a bad feeling. Negative emotions are just a signal to let you know, that you are out of balance with your pure positive Soul. You will experience unbalance. Positive thoughts, will give you positive emotions and make you feel good. Because you are in line with your pure positive Soul, you will experience balance. The body is made for the Soul and not for the ego perspective!

Exercise: Look at a soap on your TV. And see, how the people constantly experience negative emotions, because they can't get what they want. And when they get what they want, they experience a false positive emotion. Only good positive decisions are based on the ground rule of the Soul. A decision should only be made; if the decision is good for you, for all other people in the world and for nature. This is the only way to create balance in you, balance with other people in the world and balance with nature. (You is standing in front, because life is all about your experiences, learning from the Lessons of Life and creating new experiences in the future you desire!)

Example false positive emotion: Rob a bank, and get away with 1 million dollars, the robber, feels great. This is not a positive emotion to tell you, that you are on the right positive track in life. No, because it is not based on the ground rule of the Soul. Again the body and mind is made for your Soul, and your Soul would never hurt anyone in life. Our emotions get mixed up, by your ego perspective and your created criminal, dangerous, cruel and unnecessary negative world! Your body and mind are made for the Soul and for a world of Souls, and not for a world created by the ego perspective.

Remember that positive thoughts, always gives you a good feeling and negative thoughts gives you always a bad feeling. When you experience negative emotions, you are always thinking something, what is not good for you or for others. You should change your negative thoughts into positive thoughts. No person nor situation can make you ever feel bad! You are the only one, responsible for your bad or good feeling! We show you below, the ego feels upset and the Soul keeps feeling good!

1. When someone calls you bad names, or is talking bad about you to other persons. Your ego: despises the person, wants to do the same, is irritated, frustrated, etc. Your Soul: accepts the situation, and keeps positive thoughts, by forgiving, giving space to others to make mistakes, has unconditional love for everyone, etc.

2. When someone steals from you. What will you experience? Yes, negative emotions. And those emotions are telling you to change your negative thoughts into positive thoughts. The ego: wants justice, wants revenge, wants the money back. Is irritated, frustrated, angry, etc. The Soul: accepts the situation, and knows it can create money again. And perhaps the other person needed the money more. The Soul knows that this negativity, is a Lesson of Life, to learn from and to deal with it positively. And that is the big difference between the ego perspective we have created in our ratio and the Soul we really are, were and always will be. The ego perspective is like a child and the adult is the positive Soul. It is time to grow up!

Another New Truth in Life, we rather choose to focus on negativity than positivity!

Your ego perspective in your ratio, let you most of the times choose to focus at negativity instead of positivity. Ask yourself this question: Do you focus your thoughts every day on what you: have, are, can, want, etc, or do you focus more on what you have not, are not, can not and don't want in life? That is the difference between being respectively being positive or negative! We want to solve our problems in life, by focussing for a solution to fill a gap! Instead of dealing with the negativity positively and learn from the negativity and change negative thoughts in positive thoughts! When we don't learn, we create more lessons in our lives to learn the same thing! Therefore most people have lives which are filled with negativity, because they do not learn. Because they don't know the real construction of life. You should not look at what you miss in life. Instead be content what you have and desire new experiences/ things to enjoy. See how we change negative thoughts in positive thoughts. It is as simple as this. The results will be, that you create more positivity in your life. That belongs to the automatic creation in life, we explain in our book.

Another New Truth of Life, no person nor situation can ever make you feel bad!

When you encounter a negative person or a negative situation. You have a choice to handle the situation with negativity (ego perspective) or with positivity (your Soul). When you encounter the situation negatively, you will create negative emotions. When you encounter the situation positively, you will create positive emotions. Negative emotions make you feel bad, and positive emotions will make you feel good. The ego perspective looks only at the surface of life. A person is yelling at him, and he feels bad, so the person makes him feel bad. A very wrong conclusion, because the ego perspective doesn't understand the causality between thoughts, emotions and feelings. We explain more about this in the next paragraph.

Your thoughts will always create your emotions! When you are on the right positive path in life or in other words in line with your pure positive Soul, you are in balance. And you experience positive emotions. When you are deviated from the right path in life and out of line with your pure positive Soul, you will be out of balance, and you experience negative emotions. Your negative emotions are there to guide you back in line with your pure positive Soul. Your body and mind is created to host your Soul. And all guidances in life are created to keep the Soul in line with pure positivity! That is the real truth about the creation of the humans! The goal in our lives as Soul and as a human being is to give, create and receive positive energy. Positive energy is what makes you happy! It is as simple as we wrote here! Perfected in simplicity.

All the people in the world are a pure positive Soul. About 99,7% of the people have a split personality in themselves. The Soul is who they really are, were and always will be and is split by the ego perspective you have formed in your ratio. The ego perspective is negative and destructive and creates negative thoughts and negative emotions in your life! When you don't experience negative emotions in your life, you are your pure positive Soul. Do you experience negative emotions in your life? Like: disappointment, frustration, irritation, sorrow, etc. Now, you know what this means!

Our Soul is pure positivity and 100% pure positivity creates the maximum of balance in you. And this is not from the apparently material world, where we know that balance is created by negativity and positivity. The cohesion and adhesion between molecules creates the apparently material world, but still it is only a perception of energy. Our Soul is originated from the immaterial dimension, we call heaven.

*Our scientists knows that the apparently material dimension we live in, is created by a big bang. Now we give you a New Truth of Life to remember: Something can never be created from nothing! This is impossible! Do you agree? When you create something you always need energy. And the creation of our apparently material dimension is created by the energy of the immaterial dimension, therefore you can know that the immaterial dimension is more real, than the apparently material world. All life forces, including your Soul are constantly transferring, between the immaterial and the apparently material dimension. That is the real creation of life. Humans can never create life scientifically, because they are not able to create the immaterial life-forces! That is only possible in an immaterial dimension, where only positivity can exist. We go now very fast. In our book, we go much slower and step by step. But we want to give you just some new points of view to understand life! If you read what we have taught you in this pdf and look for it in life, you will see it over and over again. And you will first be confused, and than amazed that you understand life better, than almost all people in the world. Only by this pdf! Do you start to see, why it is important that everyone knows, that we have about 1000 pages of information for you to help, to solve **all** your problems in life? And it is simple and easy to do!*

The author feels like a painter, who painted for the first time. And really created the most beautiful painting in the World. And no one, wants to look at it. No one sees it, because it is in his house! And when he tells people come have a look at my new painting, it is really the most beautiful thing ever created. The ego perspective looks at the person, and asks him to show his resume and realized work. And the painter says: "This is my first painting, it just was created by a picture I got in my mind". No ego perspective is interested! Because, the ego perspective believes in hard work, study, experiences, successes and doesn't believe in inspiration and spontaneous creation! The ego perspective doesn't believe in spirits and doesn't understand that our immaterial life is much more real, than your apparently material world. The ego perspective still believes metaphorical: "The earth is flat". Open your mind for the immaterial world and you will be able to understand the real construction of life. Therefore we put a piece of the painting in this pdf, to make you understand, that it is real information. We can learn from and use in our lives! We don't ask you to believe us, but to find the truth for yourself and in yourself. It will always be your choice what you want to believe! Use the given information in life and observe other people, and realize that what we have wrote is true! Seeing is still believing! Enjoy and have fun.

If there is a creation and it is chaotic and has no relations with each other, than it is designed without a plan. And you will find this never in nature. Only in the human world, because the design has to be based on the immaterial to be a perfect creation. The humans create on basis of the apparently material world, and therefore the creations are chaotic, and our life is chaotic. As you everyday can notice. Nature has order and is extremely balanced and structured and this could not have been created without a plan in steps. And evolution finds its path from step to step. Before a creation there is always an immaterial plan, a design. In our book we will explain the differences between the apparently material world and the influence of the design of life forces in the immaterial dimension further. And you can understand that the higher intelligent being in the immaterial dimension, we call God is real. And even how your Soul can descend into your human body and why. Interesting isn't? But don't see this as just a nice story, we give you a GUIDE to use!

Death does only exists for the ego perspective, that believes the apparently material world and your body and mind is real. And the ego perspective believes only what it can see, hear, feel, touch or measure. (You still believe, "That the earth is flat!") You are, were and will always be your Soul. And if you become your Soul again, you will experience a life without fears, worries, prejudgements, and with no negative emotions. You will gain balance in yourself and in your life, by being that pure positive Soul. This state of being is a very light state, because you will make your life easy and simple. A lot of people call this the path to enlightenment (A light state of being). And this was what Jesus wanted to show us in his time. And we give you the path to enlightenment in simple and detailed words. Everyone can become enlightened, if you choose to walk the path by reading our book, and start to realize who you are! We have enclosed the words of Jesus below in the pdf. Read them and see that he knew exactly, about 2015 years ago, what we are describing here.

Our human body is made for your Soul. And it all went wrong, when the humans couldn't manage their fears, their worries and their greed! Than the ego perspective was created in the ratios, thousands of years ago and it is still growing negatively!

Everyone who reads our book and does the exercises will be set on the path to enlightenment. We teach you, how to become your Soul and let your negative and destructive ego perspective go. We will give many examples from real life, to show you what our ego perspective does to you and your life. And we show you how a Soul will handle the situation. By seeing the difference, you see the adult and the child. And it is up to you, what you want to be. Once you realize this, you will never want to be the unknowing sleeping child again. Learn this knowledge to help yourself and all other people in life! Communicate and share our knowledge with others!

We can give you a lot of this kind of information and much more, we have contained them all in our book. We give proof of everything we told you above. And for Now, we want you just to make sure you know, that this information exists! And one day, not long from now, you will have our book, and can make up your own mind, what you want to believe. You will be amazed, we promise you this! We know, that this information will be spread around the world like a fire. The change starts in the individual, don't wait on your leaders! The ones with the biggest ego's will find, as last their Souls! It all starts in and within you! Help us, to help you!

All people are a Soul and will in the end, all go to heaven, the other immaterial dimension. The people who had negative thoughts, and did negativity on earth, will have to transform their Soul into pure positivity again, before they can enter the immaterial other dimension. Also the bad people in the world, will go to heaven. But, they have to work in the In-Between at their mistakes, failures and negativity on earth. There the schooling for them will really begin. Now, you know, that all people will be forgiven, by themselves as Soul. Life on earth is for the human beings about experiences, learning the Lessons of Life and create new positive experiences.

We explain more in detail in our book. When you read our book, you will know everything there is to know about life, and you can easily find solutions for all your problems in life and even in the world. By reading the book and doing the exercises slowly, you will feel your perspective changing. It takes time to change your perspective, that is why we need 1000 pages to make you really aware of the real construction of life. We hope that this pdf, will start to make you curious, to want to know everything there is to know about life! The world needs more Souls, join them!

We told you in this pdf just a very small part of what there is to know about life! We give you only the Truth, nothing more and nothing less. Inform yourself and others and decide for yourself what you want to believe. That is all we ask from you. Enjoy and have fun. Thank you very much for your attention, and choose well!

Read below the Appendix, with information about our next book: "The New World of Souls!". This book will be the guidance to a real Harmonious and Peaceful world, our heaven on earth! Not a nice bedtime story, but a reality, if you choose to create it!

Still 99.7 % of humans have the ego perspective, and no one understands it!*

The ego perspective is still present in almost everyone of us!

Below we will give you the interpretation of the Gospel of Thomas, have fun.

March, 2015

A New Interpretation of the words of Jesus, by Thomas Francisco Pelgero

The Gospel of Thomas

These are the secret words which the living Jesus spoke, and Didymus Judas Thomas wrote them down.

(1) And he said: He who shall find the interpretation of the words shall not taste of death.

1. The person who finds the interpretation of these words will know the construction of life and will understand that death does not exist.

(2) Jesus said: He who seeks, let him not cease seeking until: finds; and when he finds he will be troubled, and if he is troubled, he will be amazed, and he will reign over the All.

2. Jesus meant: Who searches for the answers of life, and keep on searching will find the answers of life. And when you find the answers of life you will be confused, that it is so different than our standard believes. And after you will be confused, you will be amazed. Because you will know everything about life!

(3) Jesus said: If those who lead you say unto you: Behold, the Kingdom is in Heaven, then the birds of the Heaven will be before you. If they say unto you: It is in the sea, then the fish will be before you. But the Kingdom is within you, and it is outside of you. When you know yourselves, then shall you be known, and you shall know that you are the sons of the living Father. But if ye do not know yourselves, then you are in poverty, and you are poverty.

3. Jesus meant: If your leaders tell you: Look, God is in the sky, than the birds will find their way quicker to God than you. If your leaders say: Look God is in the sea, than the fish find their way quicker to God than you. But, whatever your leaders will tell you, you have to understand that you have the Godly energy inside of you and the Godly energy is all around you. If you really learn who you are, than you will start to recognize yourself as a godly Soul. And you will know that you are a pure positive godly Soul originated from the energy of God. When you don't know yourself, than you will see only your human life as your real life and that is very limited, powerless and a poor vision of yourself.

(4) Jesus said: The man aged in his days will not hesitate ask a little child of seven days about the place of life, and he shall live. For there are many first who shall be last, and they shall become a single one.

4. Jesus meant: An adult person will not hesitate to ask a little child of seven days about Heaven. The adult knows, that the Soul of the little child is still one, and if the adult makes his Soul one too, he will find his own real immaterial life.

Many successful people in the material world, shall be the last persons who enters Heaven. Because, they will have to let their large ego perspective go. In the In-Between dimension, they will have to make themselves one again. When they become their Soul as one, they can enter Heaven.

(Extra info to explain the basics: The split personality of a human is on one side the Soul in and around the human body/mind and on the other side the ego perspective (including character) which is created in the ratio. When a Soul is two, the human has created a negative energy layer from the ego perspective around the positive Soul. Heaven consists only from positive energy, and Souls can only enter, when they are pure positive energy again. Concerning the construction of life there are three dimensions important: The pure positive immaterial dimension, which is called Heaven, the In-Between dimension where only positivity can exist and also positivity and negativity can exist (This is the dimension to combine the immaterial dimension with the apparently material dimension), and you have the created dimension by God (with the so called big bang) the apparently material dimension, which is completely based on positivity and negativity. (Cohesion and adhesion between the molecules in this dimension is necessary to create our apparently material world).

(5) Jesus said: Know what is before thy face, and what hidden from thee shall be revealed unto thee; for there is nothing hidden which shall not be made manifest.

5. Jesus meant: Know the honest truth, what is going on in yourself, your life and in the world. And everything you and others think, do and hide will be created in your the future. The automatic creation process of our thoughts and actions as base for the creation of our own Lessons in Life.

(6) His disciples asked him and said unto him: Wilt thou that we fast? And how shall we pray? Shall we give alms? And what rules shall we observe in eating? Jesus said: Do not lie; and that which you hate, do not do. For all things are revealed before Heaven. For there is nothing hidden which shall not be manifest, and there is nothing covered which shall remain without being uncovered.

6. His disciples asked him and said to Jesus: Do you want us to fast? And how do we have to pray? Shall we give to beggars? And are there rules by what we can eat? Jesus meant: Don't lie, and treat others, how you want to be treated yourself. Be that, how you want others to be. And give that, what you want others to give you. All the negativity you do will be noted in your Karma. And the karma is connected to your Soul and you take this with you to Heaven. You will know all the wrongs you did in your life, and this will create new Lessons for you in your next life.

(7) Jesus said: Blessed is the lion which the man shall eat, and the lion become man; and cursed is the man whom the lion shall eat, and the lion become man.

7. Jesus meant: When we let go of the ego perspective in ourselves, we become our Soul. But when the ego perspective stays and increases in our ratio, the ego perspective will live in the human and destroy the humans.

(8) And he said: Man is like a wise fisherman, who cast his net into the sea and drew it up from the sea full of small fish. Among them the wise fisherman found a large good fish. He threw down all the small fish into the sea; he chose the large fish without trouble. He that hath ears to hear, let him hear.

8. And Jesus meant: The greed of humans make the humans wanting more and more, bigger and bigger. If you understand that greed is our bases for our ego perspective, than you know you should be content with everything in life what will be given to you. And not only focus at the big successes in life.

(9) Jesus said: Behold, the sower went forth, he filled his hand, he cast. Some fell upon the road; the birds came and gathered them. Others fell on the rock, and sent no root down to the earth nor did they sprout any ear up to Heaven. And others fell on the thorns; they choked the seed, and the worm ate them. And others fell on the good earth, and brought forth good fruit unto Heaven, some sixty -fold and some an hundred and twenty -fold.

9. Jesus meant: When you know the truth about the real construction of life. You have to tell people the real truth of the construction of life. Many people will not want to hear, see, feel or touch the truth. Even they will try to make fun of you, explain others you are crazy and perhaps even try to hurt you. But, you have to go on spreading the information about the real construction of life. Than you will find the right positive people in life. They will all spread the knowledge to other persons until everyone knows the real truth about the construction of life. The truth will free the humans from the boundaries of their ego perspectives.

(10) Jesus said: I have cast fire upon the world, and behold I guard it until it is ablaze.

10. Jesus meant: I have told the first words of the real construction of life to the world, and I will make sure in this world or as Soul, that the words will spread like a fire around the world. And one day the construction of life will be known around the world, by all people alive.

(11) Jesus said: This Heaven shall pass away, and that which above it shall pass away; and they that are dead are not alive and they that live shall not die. In the days when you were eating that which is dead, you were making it alive. When you come in the light, what will you do? On the day when you were one, you became two. But when you have become two, what will you do?

11. Jesus meant: Generation after generation humans will die. And those who did not find their Souls are living on earth with the ego perspective as dead people. They, who found their Souls, will know the construction of life and will not die. When you let your ego perspective go, you will find your Soul and you will be alive. You were born as Soul and than you created your ego perspective and you became two. When your body dies and your Soul is heading for Heaven, what will you do, if you are two? When you are still your pure positive Soul and surrounded yourself with negative energy from your ego perspective, you will have to transform the negative energy in positive energy in the In-Between. Only pure positive Souls can enter Heaven, the immaterial positive dimension.

(12) The disciples said to Jesus: We know that thou wilt go from us. Who is he who shall be great over us? Jesus said to them: In the place to which you come, you shall go to James the Just for whose sake Heaven and earth came into being.

12. The disciples said to Jesus: We know that you will go away from us. Who do we have to follow and to listen to? Jesus meant: Everywhere you go, find in yourself your true teacher. And the true teacher is yourself, your Soul. And when you listen to the voice of the Soul, you will hear your conscience talking. God has made for the Soul this apparently material dimension, including for example, the body and mind of the humans, as hosts for the Souls on earth.

(13) Jesus said to his disciples: Make a comparison to me, and tell me whom I am like. Simon Peter said to him: Thou art like a righteous angel. Matthew said to him: Thou art like a wise man of understanding. Thomas said to him: Master, my mouth will no wise suffer that I say whom thou art like. Jesus said: I am not thy master, because thou hast drunk, thou hast become drunk from the bubbling spring which I have measured out. And he took him, went aside, and spoke to him three words. Now when Thomas came to his companions, they asked him: What did Jesus say unto thee? Thomas said to them: If I tell you one of the words which he said to me, you will take up stones and throw them at me; and a fire will come out of the stones and burn you up.

13. Jesus meant: When you compare me to others, what am I for you? Simon Peter said to him: You are like a good angel. Matthew said to him: You are a very wise man that knows the construction of life. Thomas said to him: Master, I can't express the words whom you are looking like. Jesus meant: I am not your master, I have told you about the real construction of life and that makes you, placing me on a pedestal. You are dividing us instead of seeing all people as Souls and equals. Jesus took Thomas aside and told him three words. "We are equal!". Now when Thomas came back to his friends, they asked him what did Jesus said to you? Thomas said to them: If I tell you one of the words which Jesus said to me ("Equal"), you will take up stones and throw them at me. And when you throw the stones at me, you will do negativity and create more negativity in your lives.

(14) Jesus said to them: If you fast, you will beget a sin for yourselves; and if you pray, you will be condemned; and if you give alms, you will do an evil to your spirits. And if you go into any land and travel in its regions, if they receive you eat what they set before you. Heal the sick among them. For that which goes into your mouth will not defile you, but that which comes forth from your mouth, that is what will defile you.

14. Jesus meant: If you fast, you will be not good for yourself. (The ground rule of the Soul for a good decision in life is to be good for yourself AND for all other people in the world AND for nature). If you pray, you will be condemned. This means if you are searching for answers and help from God, than no help will come. Because, you are your Soul and your body and mind is made to guide you, in line with your Soul. All the wisdom you need is inside you. Let your ego perspective go and become one again, be your Soul. And you will have an answer to solve all the problems in your life. If you give a little bit money to a

beggar, you will not solve the problem. You help the beggar, yes and that is good. But the problem is that you and other people in the world allow beggars and poor people to exist. And that is the real problem in life, you should want to solve. We have to overcome the greed in the ego perspective by making the right decisions on the ground rule of our Soul. Where you go on your travels in life, eat what they offer you. You can never get sick by what you are eating. You only get sick when you are talking, thinking or doing negative in life. Always help yourself AND all other people in the world AND nature.

(15) Jesus said: When you see him who was not born of woman, throw yourselves down upon your face and worship him. He is your Father.

15. Jesus meant: When you see a human, who is not born from a woman, worship the human. Because this will never happen! With other words: don't worship humans. Because everyone is equal. When you start to worship people, you divide people instead of uniting and connecting yourselves. And when you worship people, you don't follow their example, because you made them special. And you made it even a sin, to compare yourselves with saints. Our Souls are made from and by God and therefore we all are godly!

(16) Jesus said: Perhaps men think that I am come to cast peace upon the world, and know not that I am come to cast divisions upon the earth, fire, sword, war. For there shall be five in a house; there shall be three against two, and two against three, the father against the son and the son against the father, and they shall stand as solitaries.

16. Jesus meant: Perhaps humans think that I come to bring peace on the world. But you do not know, that my words will divide people on the world. Because they do not understand the words. People will use fire, weapons and make wars. When you have a home with five people in the house, three will think different than two, and two will think different than three, the father think different than the son and the son will be against the farther. And they will all be alone in their ideas. Focussing on differences in opinions will divide us, focussing on what opinions have in common, will connect us. With other words, everyone thinks they are right and they will fight for it and about it. And in the end everyone will be alone. Because the words are not understood!

(17) Jesus said: I will give you that which eye has not seen, an ear has not heard, and hand has not touched, and which has not entered into the heart of man.

17. Jesus meant: I will tell you information about your Soul and the immaterial construction of life, what you can't see, nor hear, nor touch and which has not entered the heart of the human. And that is your higher perspective of the Soul.

(18) The disciples said to Jesus: Tell us how our end shall be. Jesus said: Have you then discovered the beginning, that you seek after the end? For where the beginning is, there shall the end be. Blessed is he who shall stand in the beginning, and he shall know the end and shall not taste of death.

18. The disciples said to Jesus: Tell us how our end shall be. Jesus meant: Did you find your beginning already, that you are now looking for your end? There where the beginning is, there shall be the end. This means, when you are born you are your Soul completely and when your body dies, you are your Soul again. A Soul as complete positive energy or surrounded with negative energy from your ego perspective which you have created and is taught in life. Instead of looking at the consequences when your body dies, better find the Soul in yourself when you are alive.

(19) Jesus said: Blessed is he who was before he came into being. If you become my disciples and hear my words, these stones shall minister unto you. For you have five trees in Paradise which do not move in summer or in winter, and their leaves do not fall. He who knows them shall not taste of death.

19. Jesus meant: Blessed is your Soul, before it entered the human body. If you become my disciples and understand my words than my words will guide you. The five signals as guidance to guide us in line with our pure positive Soul are: 1. our emotions, 2. our body, 3. our conscience, 4. our aura, 5. signals in life. The person who knows this will become enlightened and understands the Soul and the immaterial construction of life. And the enlightened person knows there is no death, only a passing over to be a Soul again.

(20) The disciples said to Jesus: Tell us what the kingdom of Heaven is like. He said to them: It is like a grain of mustard-seed, smaller than all seeds; but when it falls on the earth which is tilled, it puts forth a great branch, and becomes shelter for the birds of Heaven.

20. The disciples said to Jesus: Tell us what the kingdom of Heaven is like. Jesus meant: The most precious (Kingdom) of the immaterial dimension (Heaven), is your godly Soul inside of you. When you are born the conscious part of the Souls awareness is very small and unknowing and equals your awareness. The rest of your Souls awareness has another split Soul part and will settle in your subconscious. "When the earth is tilled", means, when the Soul stays one in the body and will not create an ego perspective. The Soul in the human body and mind will be the person who is a balanced pure positive godly human being. And that person will be enlightened and knows the complete construction of our immaterial life. And will spread the words and knowledge to all people around the world.

(21) Mary said to Jesus: Whom are thy disciples like? He said They are like little children dwelling in a field which is not theirs. When the owners of the field come, they will say: Yield up to us our field. They are naked before them, to yield it up to them and to give them back their field. Therefore I say: If the master of the house knows that the thief is coming, he will keep watch before he comes, and will not let him dig into his house of his kingdom to carry off his vessels. You, then, be watchful over against the world. Gird up your loins with great strength, that the brigands may not find a way to come at you, since the advantage for which you look they will find. May there be among you a man of understanding! When the fruit was ripe, he came quickly, his sickle in his hand, and reaped it. He that hath ears to hear, let him hear.

21. Mary said to Jesus: How are your disciples? Jesus meant: They are like little children, constantly wanting to get what they want. And when they can't get it, they get upset. They have formed an ego perspective in their ratio. This ego perspective is based on greed. They don't understand who they really are as Soul. And most of the times they don't want to hear it, nor want to see it. They should be aware, that the leaders are constantly looking to offer fulfillment to satisfy their greed in life, and to let them do what they want them to do. Prevent this, by be the one, who thinks independently. Let your ego perspective (based on greed) go and embrace your Soul and be your Soul.

(22) Jesus saw some infants at the breast. He said to his disciples: These little ones at the breast are like those who enter into the kingdom. They said to him: If we then be children, shall we enter the kingdom? Jesus said to them: When you make the two one, and when you make the inside as the outside, and the outside as the inside, and the upper side as the lower; and when you make the male and the female into a single one, that the male be not male and the female female; when you make eyes in the place of an eye, and a hand in place of a hand, and a foot in place of a foot, an image in place of an image, then shall you enter [the kingdom].

22. Jesus saw some infants at the breast. Jesus meant: These little babies are the ones with a pure positive Soul and don't have an ego perspective and will enter Heaven without any problem and right away. They said to him: If we are children, shall we enter Heaven? Jesus meant: When you have the ego perspective and the Soul inside you, you are two. And when you let go of your ego perspective and become your Soul again. Than you become one, again. To do this, you have to make your inside as your outside and your outside as your inside. This means: Inside is your pure positive Soul, that means that your outside like: thinking, talking and doing should also be pure positivity. You should be, act and think positive, all the time. The extra manly male or female female side is also created by our ego perspective. And we should let go of this ego perspective and become our Soul again. If you are honest, sincere and open to yourself and others, than you have done your work. Your Soul is a pure positive Soul again and can enter Heaven when your time has come..

(23) Jesus said: I shall choose you, one out of a thousand, and two out of ten thousand, and they shall stand as a single one.

23. Jesus meant: I shall choose you, one out of a thousand and two out of ten thousand and they shall stand as single ones. This means in all our generations we have known men and women who knew the construction of life and told about it. But they were alone in their quest to spread this information around. One day the voice will be heard and the new information will spread around the world. It all starts in the individual to change the world.

(24) His disciples said: Teach us concerning the place where thou art, for it is necessary for us to seek after it. He said to them: He that hath ears, let him hear. There is a light within a man of light, and it gives light to the whole world. If it does not give light, there is darkness.

24. His disciples said: Tell us where are you from, for us it is necessary to seek it. Jesus meant: Listen very carefully. There will be a man, who will be awakened by spirits and knows the construction of life and will spread the knowledge to the people worldwide. If the people change and take over the knowledge of the construction of life, the world will be saved. If the people don't change and not welcome this new information the human race will die.

(25) Jesus said: Love thy brother as thy soul; keep him as the apple of thine eye.

25. Jesus meant: Love all people in the world, as you love yourself and your siblings as Soul. All people are equal in life. No exceptions.

(26) Jesus said: The mote which is in thy brother's eye, thou seest; but the beam which is in thine eye, thou seest not. When thou dost cast out the beam from thine own eye, then wilt thou see to cast out the mote from thy brother's eye.

26. Jesus meant: Don't look at other persons in life, don't try to change other people in life, because you have to work at yourself. What you become, is what you create! Never judge people, stay with your thoughts with yourself.

(27) Jesus said: If you fast not from the world, you will not find the kingdom; if you keep not the Sabbath as Sabbath, you will not see the Father.

27. Jesus meant: If you believe in and focus on the apparently material world, you will never find the true immaterial real life you have as Soul. And the immaterial home you have is the immaterial dimension, we call Heaven. You have (to fast) to detach yourself from the apparently material world. If you don't give yourself time, meditate or rest, to find out who you really are. You will never find your godly Soul inside of you or really know that God exists.

(28) Jesus said: I stood in the midst of the world, and I appeared to them in flesh. I found them all drunk, I found none among them thirsting; and my soul was afflicted for the sons of men, for they are blind in their heart and they do not see. For empty came they into the world, seeking also to depart empty from the world. But now they are drunk. When they have thrown off their wine, then will they repent.

28. Jesus meant: I am the center of the world and attention, and I am a human too. I found all the people asleep. Busy to satisfy their ego perspective based on greed. None of them was curious to find a new positive path in life. And my Soul had pity for the children of the people. They were taught the same ego perspective at life. They are blind in their hearts and they could not see the real immaterial world. They came empty with their awareness, as conscious Soul part in the human body, and will probably also depart from this world empty handed. Because the Lessons of Life will not be learned. They can only be saved, if they let go of their ego perspective and embrace their Souls.

(29) Jesus said: If the flesh has come into being because of the spirit, it is a marvel; but if the spirit (has come into being) because of the body, it is a marvel of marvels. But as for me, I marvel at this, how this great wealth has settled in this poverty.

29. Jesus meant: If the human being has become completely their Soul, it will be a miracle. But, when the Soul has becomes the body, it is a miracle of all miracles. But as for me, I am wondering myself how the wealth of every Soul can result in such poverty. To explain this more in detail and simple words. Jesus meant with this statement: It is for the humans very difficult to let go of their negative and destructive ego perspective and become their Souls again. The humans have declined their Soul as being, by creating the falsely ego perspective in the body and mind as their being. And they believe that the material world is the real world. And this is for Jesus the biggest miracle all times. When people have such a wonderful pure positive godly Soul inside of them, how is it possible, that they believe they are just their body and mind. They are living with a very poor perspective in life.

(30) Jesus said: Where there are three gods, they are gods; where there are two or one, I am with him.

30. Jesus meant: Where there are three gods, they are gods, where there are two or one, I am with them. When you have three persons talking and thinking they are right, than there is no place for an enlightened person or the conscience to tell the words of the real construction of life. They will never listen. When there are one or two persons, they could be open to listen to the words of an enlightened person or their conscience to hear about the construction of life.

(31) Jesus said: No prophet is acceptable in his village; a physician does not heal those who know him.

31. Jesus meant: When people knows someone, who tells about the immaterial construction of life. They will not take him seriously and will not accept him as a prophet. Because, how can such an ordinary person knows the truth. The second metaphor is the same. It is that a physician does not heal persons who knows him. They don't take him seriously and question his suggestions. People only want to listen to you, if you are successful in the material world. And those people are the blind people, with a very big ego perspective. And the ego perspective makes people see, and study only the symptoms in the surface of life. On earth the blind leads the blind to destruction.

(32) Jesus said: A city that is built on a high mountain and fortified cannot fall, nor can it remain hidden.

32. Jesus meant: If you start to inform people about the immaterial world of Souls and the immaterial construction of life, people will notice you. They will love you or hate you, that is their decision to make.

(33) Jesus said: What thou shalt hear in thine ear, proclaim to the other ear on your roof-tops. For no man lights a lamp and sets it under a bushel, nor does he put it in a hidden place; but he sets it upon the lamp-stand, that all who go in and come out may see its light.

33. Jesus meant: When you understand the immaterial construction of life and gained the higher perspective of your Soul. In other words you became enlightened, tell it to the world. Because there is no Soul, who discovers something wonderful and keeps it only for him/herself. But the real Souls will spread the words around the world. That is your task as Soul, as soon as you find the light, burn it, to help others to find the right positive path in life too.

(34) Jesus said: If a blind man lead a blind man, both fall into a pit.

34. Jesus meant: The leaders of the world are blind and they lead the other blind people on earth and together they fall in the pit. If the world don't change their ego perspective into the higher perspective of the Soul, than the human race will be destroyed. The leaders with the big ego perspective will never start finding the Souls in themselves. They will be the last, as described before. But the real change of the world, starts in the individual. It all starts in and with you.

(35) Jesus said: It is not possible for anyone to go into the strong man's house and take it (or him) by force, unless he bind his hands; then he will plunder his house.

35. Jesus meant: It is not possible to go to someone and try to convince him or her and persuade him to change his or her believes. This person can say he or she agrees, but inside of him or her exists the former believe. We can only inform and ask a person, what he/she thinks about a new believe. That is what communication is about. And the change will be the decision formed by the free will of the individual. It all starts with and within that person. We should give that person space to make up his/her own mind.

(36) Jesus said: Be not anxious from morning to evening and from evening to morning about what you shall put on.

36. Jesus meant: Do not have fears, worries or other negative emotions in your life. And don't care about what other people might think of you. Stay with your thoughts with yourself. And when you are in line with your pure positive Soul, you will have only positive emotions and feel good all the time.

(37) His disciples said: On what day wilt thou be revealed us, and on what day shall we see thee? Jesus said: When you unclothe yourselves and are not ashamed, and take your garments and lay them beneath your feet like little children, and tread upon them, then [shall ye see] the Son of the living One, and ye shall not fear.

37. His disciples said: On which day will you reveal the secrets to us and on which day will we know who you really are? Jesus meant: "When you unclothe yourselves", that means when you are honest, sincere and open in your communication. "And don't feel ashamed". That means that you don't have negative emotions any more. Than you will meet your Soul and you will not

have fears, worries nor prejudgements anymore in your life. Than you will know who I am. A Soul, just as all people, were, are and always will be.

(38) Jesus said: Many times have you desired to hear these words which I speak unto you, and you have none other from whom to hear them. Days will come when you will seek after me, and you will not find me.

38. Jesus meant: Many times you wanted to hear these words I am telling you, and you have no other to listen too. There will be a lot of days that you will seek me but you can't find me. This is a prediction Jesus made for the future, and came true.

(39) Jesus said: The Pharisees and the scribes have receive the keys of knowledge; they have hidden them. They did not go in, and those who wanted to go in they did not allow. But you be ye wise as serpents and innocent as doves.

39. Jesus meant: The Pharisees and scribes have received the keys of knowledge and they have hidden them. They have never learned these words they had, and they did not permit others to study the words. If you understand the words you have to tell them to others, but tell it wisely. Be aware, that most people are not ready for the new immaterial construction of life. And there are some of them who want to prevent the change of the humans in the world. When you want to tell them the immaterial construction of life, just throw up a few stones and see, if they catch them. If they do, you can tell more. And work slowly and bit by bit. And when your words are heard, people will grow bigger ears.

(40) Jesus said: A vine was planted apart from the Father, and since it is not established it will be pulled up by its roots and destroyed.

40. Jesus meant: When you create something in the world, what is not based on the Ground rule of the Soul (decisions what is good for you AND good for all other people in the world AND for nature), but instead on the ego perspective of greed, than it is meaningless. It is just a creation. When you create on the base of the ground rule of the Soul, than you create pure positive energy and you create balance!

(41) Jesus said: He who has in his hand, to him shall be given; and he who has not, from him shall be taken even the little that he has.

41. Jesus meant: If you give to other people, than you create that other people give to you. If you don't give, than everything what you have, will be taken away from you. If you be content what you have, you will create more things to be content about. When you are not content in life, more things will be taken away from you, so you can be also not content about that. With other words, How you think and act in life, you will really create in life. Treat others, how you want to be treated in life.

(42) Jesus said: Become passers-by.

42. Jesus meant: detach yourself from your present life and your creations in life like: your family, work, status, possessions, etc. And understand that your life is your personal journey as Soul in this apparently material world, where you experience, learn from the Lessons of Life, and you can create new experiences. You can detach yourself from your present life and still as Soul have unconditional love for all people in the world and even for your family.

(43) His disciples said to him: Who art thou, that thou shouldst say these things to us? Jesus said to them From what I say unto you, you do not understand who I am, but you have become as the Jews; for they love the tree and hate its fruit, and they love the fruit and hate the tree.

43. His disciples said to him: Who do you think you are, to say that kind of things to us? The words from the enlightened person sounds arrogant, because the person knows what he/she tells is the truth. It is not a believe, but a deeper understanding of the real immaterial construction of life. Jesus tells that all humans are constantly changing their minds, what they feel like on that moment. When you tell the words to inform people to bring positivity, balance and harmony in their lives, they will love the words and will brake you down. Because, who is that person that gives us these words. These words can only be spoken by a Saint or a very successful intelligent human being from the material world. These words can't be true, he is just a simple human being, not even successful. When they hear the words and like the words, it doesn't mean that they believe the words. Therefore Jesus said: who has ears, hear. Who is interested in the words of life, listen to them. Or they will like you, but hate what you are telling. And they will tell you to stop talking and keep drinking.

(44) Jesus said: He who blasphemes against the Father will be forgiven, and he who blasphemes against the Son will be forgiven but he who blasphemes against the Holy Spirit will not be forgiven, either on earth or in Heaven.

44. Jesus meant: If you make mistakes on earth by making the negative decisions instead of the positive decisions in your life. That is not bad, as long as one day you see your mistakes and changes them in positive decisions. Than you have learned and you can forgive yourself. But, if you make negative decisions in life and you hide them, for yourself and the world, than you are working with the ego perspective against your Soul. The karma will register your misdoings and you will take them to Heaven with your Soul. This karma will be the base of the Lessons of Life with negativities you did not learn on earth. These new Lessons of Life you will have to work on in your next life.

(45) Jesus said: They do not gather grapes from thorns, no pluck figs from camel-thistles; they do not yield fruit. A good man brings forth a good thing from his treasure; a bad man bring forth evil things from his evil treasure which is in his heart, and he says evil things; for out of the abundance of his heart he brings forth evil things.

45. Jesus meant: What you: are, think, say or do, will be created in life! If you are, think, say or do negative in life, you will create negativity in life. If you are, think, say or do positive in life, you will create positivity in life. What you

desire to create in life, you should be and give to other persons in life! If you desire peace in the world, you should have peace in yourself, and offer peace to others. If you want your children to listen better, listen better to your children and offer other people to listen to them (other people)! You can do this with all desired creations you design for your future to experience.

(46) Jesus said: From Adam to John the Baptist there is none born of woman who is higher than John the Baptist, so that his eyes will not be broken (?) But I have said, He who shall be among you as a little one shall know the kingdom, and shall be higher than John.

46. Jesus meant: Of all the people who are born in the world, for our ego perspective no one is more successful, than the successful people in the apparently material life. The ego will give homage and worship those successful people, otherwise their ego perspective will get angry and upset. But as I said before, the persons who will become as small children again, as Soul as one, by letting go of their ego perspective, they will be the enlightened people who understands the immaterial construction of life. This Soul will be wiser, more successful and much more happier, than the so called successful people in life.

(47) Jesus said: It is not possible for a man to ride two horses or draw two bows, and it is not possible for a servant to serve two masters; or he will honour the one and insult the other. A man does not drink old wine and immediately desire to drink new wine; and they do not pour new wine into old skins, lest they burst, nor do they pour old wine into new skins, lest it spoil. They do not sew an old patch on a new garment, for a rent will come.

47. Jesus meant: People think to be noble is to be able to compromise. One time noble humans tell this truth and when it fits better for the noble ego perspective they will tell you another truth. Remember there is only one truth in life, you are able to describe it or not. There is only a lie and the honest or sincere truth. A little lie is always a lie, and a Lesson for you to change this lie into honesty. When you don't change, there will come more Lessons in your Life to teach you the same. You cannot be a little bit of your pure positive Soul and a little bit of the negative ego perspective, you will still have a little bit of negative ego perspective. And as long you have this negative ego perspective, you create more negativity in your life and in the life of others. A negativity should be embraced in life, it is a Lesson of Life to learn how to become positive.

(48) Jesus said: If two make peace with one another in this or house, they shall say to the mountain: Be moved, and it shall be moved.

48. Jesus meant: When you understand the split personality in your body and mind by your Soul in your conscious and subconscious awareness AND your ego perspective in your ratio. And you let your ego perspective go, by embracing your Soul you will create balance in yourself, balance in your life and balance in the world.

(49) Jesus said: Blessed are the solitary and the elect, for you shall find the kingdom; for you came forth thence, and shall go there again.

49. Jesus meant: Blessed are the chosen solitary people. The chosen solitary people have lots of time to find out who they are and start to search for answers about life. And when you start searching for answers of life, you will find them. They who found, will understand the construction of life and will find the pure positive godly Soul inside of them. And when you die, your Soul will directly go to Heaven. When people have still the ego perspective and the Soul as a split personality in themselves. They cannot enter Heaven and have to work in the In-Between dimension to change the negative energy around the pure positive energy of the Soul into positive energy. By replacing all negative decisions and actions they did in life by positive decisions and actions.

(50) Jesus said: If they say to you: Whence have you come?, tell them: We have come from the light, the place where the light came into being through itself alone. It [stood], and it revealed itself in their image. If they say to you: Who are you?, say: We are his sons, and we are the elect of the living Father. If they ask you: What is the sign of your Father in you?, tell them: It is a movement and a rest.

50. Jesus meant: If they say to you: Where do you come from? Tell them: you are originated from the higher intelligent energy being which is based on pure positivity and we know this being by the name of God. By splitting the consciousness of God and gave this new consciousness free will, God created the pure positive godly Soul. The reason of splitting Gods awareness in many individual Souls was that the individual experiences, inspirations, lessons and new creations in life will be many times multiplied. And by this creation of Souls much more positive energy can be created. When they ask, who are you? Say that you are originated from God and made in the image of God, because we are the split personality of Gods awareness. God is the total of all awarenesses and knows every life-force in the apparently material dimension and in the immaterial dimension. When they ask how can we see that we are made of this highly positive energy being we call God. Tell them it is the frequency of our pure positive energy or our Soul, that is exactly the same.

(51) His disciples said to him: On what day will the rest of the dead come into being? And on what day will the new world come? He said to them: That which ye await has come, but ye know it not.

51. His disciples said to him: On which day will the rest of the people on the world understand the construction of life and find their Souls? And when will the New World of Souls be created? Jesus meant: The time has already long been passed, but you did not see it and did not hear it and did not want to see it. Open your eyes, your ears, your mouths and see it the next time, when the secrets of life are being revealed to you.

(52) His disciples said to him: Twenty-four prophets spoke in Israel, and they all spoke concerning (lit. in) thee. He said them: You have neglected him who is alive before you, and have spoken about the dead.

52. His disciples said to Jesus: Many people have spoken the words of Jesus. The people, who let their ego perspective go and become their Soul in their body again, are the enlightened people. Enlightened because they live without worries, without fears, without negative emotions and they exist from pure positivity and we call this also pure happiness. You will have a more easier and lighter life. But people with their ego perspective rejects the person who is one with the Soul, the words sounds to good to be true, and the ego perspective based on greed has much to loose. And the people with the ego perspective keeps on looking at the apparently material world as the reality. And don't understand that the world is a complete manifestation in the immaterial world. And the truths can only be found in this immaterial world.

(53) His disciples said to him: Is circumcision profitable or not? He said to them: Were it profitable, their father would beget them from their mother circumcised. But the true circumcision in spirit has proved entirely profitable (lit.: has found usefulness altogether).

53. His disciples said to him: Is circumcision profitable or not? Jesus meant: When it was profitable, we will be made as circumcised men by nature. The true circumcision has to happen in ourselves, to cut out the negative and destructive ego perspective and become one again, one as our pure positive Soul. Than we are enlightened and can enjoy our lives. And remember we are not born with an ego perspective. The children of very young age, are their very pure Soul. But we teach our youngsters and ourself the false ego perspective in our ratio.

(54) Jesus said: Blessed are the poor, for yours is the kingdom of Heaven.

54. Jesus meant: Blessed are the poor, for yours is the kingdom of Heaven. When you don't have much in life, you will start looking in life, for new alternatives and new ideas to life. And a lot of people are searching in life for an answer to life. Because the poor people have nothing more too loose. People with possessions, power, money, status, etc. are so busy with these apparently material creations that they don't have to time or the luxury to think about life! They believe in the reality, that the apparently material dimension is the real world. The opposite contains the truth.

(55) Jesus said: He who shall not hate his father and his mother cannot be my disciple, and (he who does not) hate his brethren and his sisters and take up his cross like me shall not be worthy of me.

55. Jesus meant: The person who doesn't want to see that the parents, brothers, sisters, friends, etc have taught him/her the negative and destructive ego perspective in their ratio, can't be my student. And if you don't stand up to them

and believe in yourself and let your ego go and embrace your Soul, than you are not an enlightened person like me.

(56) Jesus said: He who has known the world has found corpse, and he who has found a corpse, the world is not worthy of him.

56. Jesus meant: The person who observes the world objectively and honestly will see that the world is dying and a very negative and dangerous place. The ego perspective has accepted so many negativities in life and constantly turns their heads away from the negativity. They don't learn from negativity and don't solve negativity in life. The enlightened person will feel, as if he or she is living in a hell. The enlightened person is too good for the world and that is exactly what the world need more of, more Souls.

(57) Jesus said: The kingdom of the Father is like a man who had [good] seed. His enemy came by night, he sowed a weed among the good seed. The man did not allow them to pull up the weed. He said to them: Lest perhaps you go to pull up the weed, and pull up the wheat with it. For on the day of harvest the weeds will be manifest; they will be pulled up and burned.

57. Jesus meant: You are born as a pure positive Soul and your parent, family and others taught you the false ego perspective at life, which is completely based on greed. If you want to get rid of the ego perspective in the ratio and become one again with your Soul. You will have to have the desire to look honestly and sincere at your life and at the world. Because only if you see the negativity in your life and in the world honestly, you can change it into positivity. And this is the path to become in line with your pure positive Soul and become enlightened. Don't wait until others will start to change first, they will not. Start the change to become your Soul in yourself and with yourself.

(58) Jesus said: Blessed is the man who has suffered; he has found the life.

58. Jesus meant: blessed is the person who had experienced a lot of negativities in his/her life. We have to embrace negativities in our life as the Lessons of Life to learn from. And we learn from the Lessons of Life by changing the negative thoughts we have and the negative actions we do, in positive thoughts and positive actions. How more Lessons of Life (negativity) you had in life, how more you could have learned in this lifetime. How more blessed you are! If you learned all your Lessons of Life, you are your Soul and you are enlightened.

(59) Jesus said: Look upon the living One so long as you live, that you may not die and seek to see him, and be unable to see.

59. Jesus meant: Listen all your life to the persons, who really found his/her Soul inside of him/her and you will never find the Soul in side of you. Because the Soul and enlightenment is inside of you. This is your guide and answer to know everything about the real construction of life. And if you want to find your Soul in you, you have to search for your Soul inside of you. Creating positivity will open your eyes and creating negativity in life will close your eyes.

(60) They saw a Samaritan carrying a lamb going into Judaea. He said to his disciples: Why does he carry the lamb? They said to him: That he may kill it and eat it. He said to them: So long as it is alive he will not eat it, but if he kill it and it become a corpse. They said: Otherwise he will not be able to do it. He said to them: You also, seek for yourselves a place within for rest, lest you become a corpse and be eaten.

60. This means that if you are alive you going the path to enlightenment and know that you are looking for your Soul. Nothing, can stop you to reach your goal to find your real immaterial life as Soul. But, if you stop searching and start to rest and join the apparently material world, than you are dead (not really alive), like most people in the world. Because, you don't learn, you don't grow, you don't create positive energy and you don't evolve into a higher awareness.

(61) Jesus said: Two shall rest upon a bed; one shall die, the other live.

Salome said: Who art thou; O man? And whose son? Thou hast mounted my bed, and eaten from my table. Jesus said to her I am he who is from that which is equal; to me was given of the things of my Father. Salome said I am thy disciple. Jesus said to her Therefore I say, when it is equal it will be filled with light, but when it is divided it will be filled with darkness

61. Jesus meant: In life you have a choice, you can be and stay or become, your pure positive Soul and be alive. Or you can live with your negative and destructive ego perspective based on greed and not be alive.

Salome was wondering about the words of Jesus. You are sleeping and eating with us as equals and you have such a holy knowledge of the immaterial construction of life. Jesus told her: I am equal to all people and I am equal to God. And I am equal to you. You and I, are the godly pure positive Souls made by God. We are all the same. Salome said I am your student. Jesus meant: Than I will tell you, we should look at things we have in common. We all are equal, our lives are connected and we create together positive energy in life. The explanation of the Tree of Life. When we are looking at the differences between each other, we will divide us, and create negativity in life.

(62) Jesus said: I tell my mysteries to those [who are worthy of my] mysteries. What thy right hand shall do, let not thy left hand know what it does.

62. Jesus meant: I will tell everyone the immaterial construction of life and will show them the path to enlightenment. Who have ears to hear this information and who are honest and sincere in life will find their Souls first.

(63) Jesus said: There was a rich man who had many possessions. He said: I will use my possessions that I may sow and reap and plant, and fill my barns with fruit, that I may have need of nothing. These were his thoughts in his heart. And in that night he died. He that hath ears, let him hear.

63. Jesus meant: When people stare in life at possessions and fulfill their needs of their greed in the ego perspective, than they forget to live. They are as dead people walking around and can't see the real true immaterial life we have got as Soul. And when they die, they haven't learn anything from the lessons of life.

(64) Jesus said: A man had guests, and when he had prepared the dinner he sent his servant to summon the guests. He came to the first; he said to him: My master summons thee. He said: I have money with some merchants. They are coming to me in the evening. I will go and give them orders. I pray to be excused from he dinner. He went to another; he said to him: My master has summoned thee. He said to him: I have bought a house, and they ask me for a day. I shall not have time. He came to another; he aid to him: My master summons thee. He said to him: My friend is about to be married, and I am to hold a dinner. I shall not be able to come. I pray to be excused from the dinner. He went to another; he said to him: My master summons thee. He said him: I have bought a village; I go to collect the rent. I shall not be able to come. I pray to be excused. The servant came, he said to his master: Those whom thou didst summon to the dinner have excused themselves. The master said to his servant: Go out to the roads. Bring those whom thou shall find, that they may dine. The buyers and the merchants [shall] not [enter] the places of my Father.

64. Jesus meant: Your ego perspective is based on greed and in our so called reality constantly busy to get more things in life. More possessions, more money, more this and that. And the ego perspective has no time and makes no time to really get to know itself. First you have to know yourself, with all your positivity and your negativity. And when you are honest to yourself you will embrace the negativity in yourself and in your life and change it into positivity. The people who die with their split personality and have the so called ego perspective as negative energy still around the pure positive Soul. Can't enter Heaven. Because Heaven is a dimension, that consists only of positivity. Negativity can't exist here. The person with the ego perspective has to change the negative energy into positive energy in the In-Between, for the Soul can enter Heaven.

(65) He said: A good man had a vineyard. He gave it to husbandmen that they might work it, and he receive its fruit their hand. He sent his servant, that the husbandmen might give him the fruit of the vineyard. They seized his servant, they beat him, and all but killed him. The servant came (and) told his master. His master said: Perhaps they did not know him. He sent another servant; the husbandmen beat the other also. Then the master sent his son. He said: Perhaps they will reverence my son. Those husbandmen, since they knew that he was the heir the vineyard, they seized him (and) killed him. He that hath ears, let him hear.

65. Jesus meant: When people give a finger, a lot of people take the whole hand. God has created this beautiful apparently material dimension (including earth), and the body and mind as hosts for the Soul. To experience, to learn from the negativity on earth, and to create new positive experiences. The earth is fruitful and has a lot to offer. The humans took more and more and never stopped taking, or even sharing. The fears and worries created more negative actions which were justified by the ego perspective. So God sent his servants to tell the construction of life and the path to enlightenment, no one listened. The ego

perspective kills and fights everyone, who is different and has a possible negative influence on their possessions, status and power. The ego does negative actions to fulfill the needs of greed in the ego perspective.

(66) Jesus said: Teach me concerning this stone which the builders rejected; it is the corner - stone.

66. Jesus meant: The corner stone of our human life and as Soul, is positivity. The people of the world rejected positivity and choose often negativity instead. When they experienced fears and worries, they did not learn from these Lesson of Life to change them into positive thoughts. No, they started to act negatively too. Because, negativity looks in the surface of life with the ego perspective as an easy and the quickest solution for the problem. A little lie, a little cheat, a little slap, a little stealing, a little manipulation, a little negativity. And how more people worked with this negativity, how more people became conditioned to negativity and accepted negativity as a part of life. We say: Life is about ups and downs, a relationship is about good and bad times, sometimes you win and sometimes you loose. But these are all sayings from our ego perspective to accept negativity. Instead of learning that negativity is just a lesson for us to change our negative thoughts into positivity. People don't focus in life on what they have got, who they are, what they can or what they even desire in life, what in the end makes them feel good! No, People focus on what they have not, are not, can't do, don't want in life or miss in life, etc. What in the end makes people feel bad! People choose and focus almost always on negativity above positivity in life and by focussing on it, you create only more of the same. Negativity creates unbalance and a bad feeling in life, positivity creates balance and a very good and happy feeling in life. Therefore positivity should be the cornerstone of our society. Look at the world and tell us with what stones the world has been build on: positive bricks or negative bricks?

(67) Jesus said: He who knows the All but fails (to know) him-self lacks everything.

67. Jesus meant: People with a lot of knowledge of the apparently material life, but don't know themselves as an immaterial Soul. Have a very "poor" and "sad" life. Why? Because, the Soul is pure positivity and pure positivity is love and happiness. Which creates balance in yourself, balance in your life, balance between all people in the world and balance with nature. Look at the things in life what really makes you happy and you will realize that only positive energy you receive, you give or you create will make you happy. And this happens always only on an immaterial basis. (Realize, that the words of Jesus, 2015 years ago still apply on our lives! And this is because, he talked about the immaterial construction of life, and this will never change, and will always be the same.)

(68) Jesus said: Blessed are you when they hate you, and persecute you, and do not find a place in the spot where they persecuted you.

68. Jesus meant: blessed are you, when they hate you and persecute you. If you start to be honest, sincere and openly talking in the light, the media. People will

adore/ worship you or hate you. There is nothing in between. Because, you are so different, than the rest of the world. People likes people; who talks, thinks and do the same things, as they do. People, who say what other people like to hear, are loved. They become politicians, presidents and your best friends, because we like lyres and manipulative people. And we accepted it as normal in our lives. It gives the people a comfortable feeling. When it is the truth or not, this does not matter. For us, it is more important if a person is beautiful or handsome, has a good job and possessions, is successful, what he/she wears, if that person is powerful, etc. People who show you the negativity honestly in life, are not loved by the humans with an ego perspective. They want to get rid of them or discredit and label them negatively. Because people who show negativity in the world, gives you a bad feeling. People don't know that this bad feeling is a signal to you, that you have to change your negative thoughts in yourself into positive thought, than you learn from the Lessons of life and increase the positive awareness in yourself.

(69) Jesus said: Blessed are they who have been persecuted in their heart; these are they who have known the Father in truth. Blessed are they that hunger, that they may fill the belly him who desires.

69. Jesus meant: blessed are the ones, who have been persecuted because of their honesty, sincerity and their positive believes. These people have the chance to know the construction of life and find their Souls, who they really are, were and always will be. Blessed are also the people, who are very curious in life and are searching for answers about life. And when you search in life for the answers about life, you will find them. Open your heart and open your mind for other ideas, compare them and see if you want to pull them into your believes. The real path to enlightenment is a path inside of you, a path to become in line with your pure positive Soul.

(70) Jesus said: When you bring forth that in yourselves, that which you have will save you. If you do not have that in yourselves, that which you do not have in you will kill you.

70. Jesus meant: If you make your Soul one again by choosing positivity instead of negativity and let your ego perspective go, than you will be alive as Soul. And you can create your Heaven on earth. When you keep your ego perspective and your Soul as split personality in your life, than you will walk on earth as a dead person. And you will create a hell on earth. Look at the world and tell us in which world you live. The ego perspective will say there is no black and white, the Soul will tell you there is only one truth in life. And the humans with the right enlightened perspective can always describe the truth in life. When you observe the world objectively and honestly, you can become inspired to change the negative situations into positive situations. That is our and your job.

(71) Jesus said: I will des[troy this] house, and none shall able to build it [again].

71. Jesus meant: I will disable the ego perspective in the ratio/ mind of the people, by telling the people about the ego perspective and that it is based completely on greed. I will tell them, that you will experience negative emotions and feel

bad, if you can't get what you want as an ego. I will tell them about the immaterial construction of life and give them another higher perspective of the Soul at life. Than they will know the truth and the ego perspective is exposed. So they will never create the ego perspective in their ratio's again.

(72) [A man said] to him: Speak to my brethren, that they may divide my father's possessions with me. He said to him: O man, who made me a divider? He turned to his disciples (and) said to them: I am not a divider, am I ?

72. The words of God are there to connect the people with each other, by the understanding that they are all equal as human and as Soul. And as long as people focus at the differences between humans, they will divide themselves. When people start to look at what combines them, they will connect with each other. We all belong to the Tree of Life, and the tree can only flourish, when all parts of the tree are flourishing.

(73) Jesus said: The harvest indeed is great, but the labourers are few; but pray the Lord, that he send forth labourers into the harvest.

73. Jesus meant: When people start to understand the real construction of life and who we are, as an immaterial pure positive Soul. Than we can change our world into a Heaven on earth. But, there are just a few who understands the complete construction of life. Let us pray to God, that he will send more Souls into the world to make the world into a positive place. This is the wrong path! There are about 6,5 billion pure positive Souls with almost all an ego perspective on earth. And they all are responsible for the negative world we have created. We should not look outside ourselves to God to get a better world, but inside of us. The path to enlightenment starts in and with every individual. When you know the path, help others in life to find the same positive path in life too. So we can create the opposite of what we have created. And the path will be enfolded, when you start to be honest and open to yourself and other to people in life.

(74) He said: Lord, there are many about the well, but no one in the well.

74. Jesus meant: There are many people surrounding me and my words, but no one knows the meaning of the words I speak. It is very hard for the humans to understand that the immaterial world is more real, than the apparently material world. Everyone stands around their Soul, and are misguided by their ego perspective that only sees life in the symptoms of the surface of life. When you let this negative and destructive ego perspective go, you will become your Soul. You go from standing around the well, into the well and you can flourish!

(75) Jesus said: There are many standing at the door, but the solitary are they who shall enter the bridal chamber.

75. Jesus meant: There are many people hearing my words and are even speaking my words, but they don't understand my words. But only the solitary person, who has time to discover him/herself and is looking for answers of life in him/

herself will find them. He or she will be reunited with her/his Soul and knows everything about the construction of life. And he/she will know, that the Souls connect all life-forces on earth and beyond, and also with God.

(76) Jesus said: The kingdom of the Father is like a merchant who had a load (of goods) and found a pearl. That merchant was wise. He sold the load, and bought for himself the pearl alone. You also, seek after his treasure which does not perish but endures, where moth does not enter to devour, nor does worm destroy.

76. Jesus meant: The Soul is very valuable and when you are positive for yourself and in yourself, then you have a start to go the path to enlightenment to become your Soul. But the Soul can only flourish by receiving, giving, creating positive energy to and from others. This is the goal of our human and Soul existence. To create more positive energy than negative energy on earth. And we can live forever as our Soul in the immaterial world.

(77) Jesus said: I am the light that is over them all. I am the All; the All has come forth from me, and the All has attained unto me. Cleave a (piece of) wood: I am there. Raise up the stone, and ye shall find me there.

77. Jesus meant: God is an intelligent energy being from the immaterial world. God is the creator of all Souls and of the apparently material dimension, including earth. God is the total of all energy in our material dimension. When you split a piece of wood, you will find energy, godly energy. If you lift a stone then you will find energy, godly energy. If you start to realize that everything is made from energy, then you can understand that our immaterial world is the real world we live in. And the apparently material world is just a manifestation for our Soul to experience, to learn from and to be inspired to create more positive energy.

(78) Jesus said: Why came ye forth into the field? To see reed shaken by the wind? And to see a man clothed in soft raiment? [Behold, your] kings and your great men are they who are clothed in soft [raiment], and they [shall] not be able to know the truth.

78. Jesus meant: Why do you live on earth, to see yourself, other people in life working and living their lives? To see your "kings" and successful humans in the world and try to follow their footsteps and to become them? To enjoy your creations in life and fulfill your function in life? People, who are always looking at the apparently material world, the so called reality, limit themselves with a very narrow perspective at life. If you start to understand the immaterial and material construction of life, you understand life and you will find your Soul. And this will provide with the higher perspective of your Soul at life. And you will find as Soul true happiness in life, because you will become pure positive energy.

(79) A woman in the crowd said to him: Blessed is the womb which bore thee, and the breasts which nourished thee. He said to her: Blessed are they who have heard the word of the Father and have kept it in truth. For there shall be days when you will say: Blessed is that womb which has not conceived, and those breasts which have not given suck.

79. A woman in the crowd said to Jesus, bless the womb from which you were born and the breasts that nourished you. Jesus meant: blessed are they, who understand the construction of life and know, who they are and kept honesty and sincereness central in their lives. If you don't understand the construction of life and live your life with your ego perspective. You will have days in your life, which will be so difficult and negative for you. That you wished you were never born. And you wish no other babies will be born, because you don't want them, to endure the same negativities as you do and did.

(80) Jesus said: He who has known the world has found the body, and he who has found the body, the world is not worthy of him.

80. Jesus meant: The persons who understands the apparently material world and are successful and have fulfilled their greed with: possessions, power and status, don't understand the immaterial world. Those persons are not good for the world. Because they create more negativity instead of positivity in the world. And the world needs positive energy to survive.

(81) Jesus said: He who has become rich, let him become king, and he who has power let him deny.

81. Jesus meant: The person who gained money and success in their life, let him/her become king. And the persons, who became their powerful Soul, deny this offer to be king and stay equal to all persons in life, there lies salvation and the evolvement of the human race.

(82) Jesus said: He who is near to me is near the fire, and he who is far from me is far from the kingdom.

82. Jesus meant: The persons who hears and understand my words about the immaterial construction of life are near to salvation, to find their Soul. The persons who do not understand my words, are far away from salvation and to find their own pure positive Soul. If you are your Soul, you may enter Heaven.

(83) Jesus said: The images are revealed to the man, and the light which is in them is hidden in the image of the light of the Father. He shall be revealed, and his image is hidden by his light.

83. Jesus meant: The words and description of Heaven, God and Soul are told to the humans. The immaterial construction of life of the humans are in the words of God. The ego perspective hides the Soul and even God. Only by changing the ego perspective in the higher perspective of the Soul the truth will be revealed!

(84) Jesus said: When you see your likeness, you rejoice; but when you see your images which came into being before you -- they neither die nor are made manifest -- how much will you bear?

84. Jesus meant: When you meet yourself in another person as if in a mirror in life, enjoy yourself. Because this meeting is to confront yourself with who you really are. If you like what you see, keep on being, doing and thinking the same, if you don't like what you see, change yourself and your life. Focus on the experiences you would like to manifest, and don't focus on the experiences you don't want to manifest in your life and in the world. Design your life as you want it to be, with your imagination. How much negativity do you want? Choose to focus on positivity above focussing on negativity in your life and create more of the same!

(85) Jesus said: Adam *came* into being out of a great power and a great wealth, and yet he was not worthy of you. For if he had been worthy, he would not have tasted of death.

85. Jesus meant: The origin of the human was perfected in simplicity. The human body and mind was made for the Soul. Everything was arranged for the Soul to experience negativity and positivity in life and becoming inspired by the negativity. To learn from the negativity, by changing the negativity in positivity. And in the end to create more positivity in life. To live without fears, without worries, without prejudgements and without almost any negative emotions. When the humans stayed in balance with themselves, with others and with nature, they would not have created the ego perspective. The ego perspective believes in the apparently material world and the body/mind and your creations are who you are. And you will fear death and loss, with your ego perspective!

(86) Jesus said: [The foxes have] the[ir holes] and the birds have [theirs nest], but the Son of Man has no place to lay his head and rest.

86. Jesus meant: The animals are in balance with nature, because they are their life-force and listen to their intuition and adapt to their environment. The animals stay in balance with nature. The humans could not deal with worries and fears and created the ego perspective, to protect themselves and try to control the outcome of life. And the ego perspective makes decisions only based on greed to prevent negative emotions. The ego perspective creates negativity in the lives of humans and this pulls the Soul out of balance, because of the split personality. And this out of balance of the Soul, creates unbalance in the human, unbalance with other people and unbalance with nature.

(87) Jesus said: Wretched is the body which depends upon a body, and wretched is the soul which depends on these two.

87. Jesus meant: Your conscious part of your Soul is your awareness. And when the conscious part of your Soul believes by the created ego perspective that the material world, including your body and mind is real, the body will feel negative emotions and feels bad. You will feel positive emotions when you are in line with your pure positive Soul and when you let your ego go. The body and mind are executing tools for the decisions of the conscious Soul, that is how life was meant to be. If the Soul is not in line, you will feel negative as a person!

(88) Jesus said: The angels come to you, and the prophets, and they shall give you what belongs to you; and you also, give the what is in your hands, and say to yourselves: On what day do they come and take what is theirs?

88. The spirit guides, angels and prophets will tell you what you have to know about the immaterial construction of life to guide you to your pure positive Soul. And you will have a choice. Living further with the ego perspective and except the extinction of the human race. Or change the ego perspective in the higher perspective of the Soul and create a New World of Souls.

(89) Jesus said: Why do you wash the outside of the cup? Do you not understand that he who made the inside is also he who made the outside?

89. Jesus meant: Why do you try to present yourself to the world, better than you are? Don't you understand, that how you are, and what you think and do, will create your future in your life?

(90) Jesus said: Come unto me, for easy is my yoke and my lordship is gentle, and you shall find rest for yourselves.

90. Jesus meant: Listen to my words. I will show you the path to an easy and simple life with: no fears, no worries, no prejudgements and almost no negative emotions. We call this the path to enlightenment. When you find your Soul and be your Soul, you will create balance in yourself, balance between other people in the world and balance with nature.

(91) They said to him: Tell us who thou art, that we may believe in thee. He said to them: You test the face of the Heaven and the earth, and him who is before you you do not know, and you know not to test this moment.

91. They said to him: Tell us who you are and what you have succeeded in life for miracles, so we can believe in you. Jesus meant: You still look with your ego perspective in the world, you want to see, feel, touch, smell the truth in the apparently material world. But, the real truth is immaterial and can't be seen or measured. You should not judge a person on who he/she is or what he/she has done, but you should just listen to what he/she has to tell you. And than you have to make up your own mind, if it is true or not. Your life is still an individual experience, and you will have to learn to see and want to see the honest truth in life. The path of enlightenment is there for you to go yourself. The best teachers in the world can only show you the path, but you are the one, who has to walk the path.

(92) Jesus said: Seek, and ye shall find; but those things concerning which ye asked me in those days, I did not tell you then. Now I wish to tell them, and ye seek not after them.

92. Jesus meant: When you start to look for you Soul and all answers about life, you will find your Soul and all answers about life. When you ask for answers to

give them to you, you will not understand them. Only if you are willing to hear the information about the construction of life and your Soul and you are going to search for it in yourself, than you will find all the answers you want.

(93) Jesus said: Give not that which is holy to the dogs, lest they cast them on the dung- heap; cast not the pearls to the swine lest they grind it [to bits].

93. Jesus meant: When you tell the information, of the construction of life or your Soul, to the people with the big ego perspectives, realize that they are not willing to listen to you and they are not willing to look honestly to your words. They will twist and turn your words and try to pull the ground under your feet away. Forgive them and give them all the space they need, they are not ready for it. Inform the people around you, that have ears to listen.

(94) Jesus [said]: He who seeks shall find, and he who knock to him it shall be opened.

94. Jesus meant: the person who really searches for answers, will find them. And if you start to walk the path to enlightenment, to your pure positive Soul. You will see more and more positivity in life, created by you. Because if you focus on positivity in life: by being, thinking and doing, you will create more of the same. And if you became your Soul in your human body on earth, you can enter Heaven directly.

(95) [Jesus said]: If you have money, do not lend at interest, but give [it] to him from whom you will not receive them back.

95. Jesus meant: If you have money, don't lend it against an interest. Don't ask something for in return. But give to people who need it, and don't expect it back. This is unconditional love, unconditional forgiveness, unconditional giving, unconditional creating. You create everything in life, what you think, do or even how you are. Because you give form to the energy blocks with your imagination, thoughts, actions and even how you are. The energy blocks in life will resonate with these energy blocks in your design and will take the same forms in life. That is how the Lessons of Life are created in your life. When you focus on negativity you create more negativity. When you focus on positivity you will create more positivity. Look at the world and see what is created!

(96) Jesus [said]: The kingdom of the Father is like a woman who took a little leaven and [hid] it in meal; she made large loaves of it. He that hath ears, let him hear.

96. Jesus meant: Your Souls awareness is inside of your body and mind and buried by your ego perspective which is settled in your ratio. When you start to feel and see your Soul and start to understand the construction of life, there is no way back, only a way forward. You never want to go back to the ego perspective, because you know the pure positivity of your Soul and the reason of your life. To embrace the negativity and change negativity in positivity. In the end to create more positive energy in and for our immaterial world.

(97) Jesus said: The kingdom of the [Father] is like a woman; carrying a jar full of meal and walking a long way. The handle the jar broke; the meal poured out behind her on the road. She was unaware, she knew not her loss. When she came into her house, she put down the jar (and) found it empty.

97. Jesus meant: When you go through life and you don't know about your ego perspective in your ratio. You will think, you live your life good and well. But when you come back to Heaven, you will understand, that you did not learn the Lessons of Life. And you have to do it twice all over again. The unlearned Lessons of Life will fill your karma and will always come to you as constructive lessons to learn from how to be and become positive.

(98) Jesus said: The kingdom of the Father is like a man who wanted to kill a great man. He drew the sword in his house and drove it into the wall, that he might know that his hand would be strong. Then he slew the great man.

98. Jesus meant: The Soul wants to get rid of the ego perspective which is created in the ratio. And the Soul tried over and over again to tell the truths to the world. But the truth of life can only be found by the individual person. Work at yourself and not at others, if you want to create something. If you want to have more Souls in the world, become your Soul and give the information to others in the world to show the path to their Soul. But, understand that everyone has to go their own path in life, with their free will. Don't convince people, but just inform them! It is for them, to take the information and do something with it.

(99) The disciples said to him: Thy brethren and thy mother are standing outside. He said to them: Those here who do the will of my Father, these are my brethren and my mother; these are they who shall enter into the kingdom of my Father.

99. The disciples said to Jesus: Your brothers and your mother are outside. Jesus meant: The path to enlightenment is an individual journey. And only the people who want to go the path to enlightenment, will find their Souls. And everyone who found their Souls, can enter the other immaterial positive dimension, we call Heaven. The others have to work in the In-Between dimension to change their negative energy from the ego perspective into positive energy. To create the pure positive Soul, only with positive energy you can enter Heaven.

(100) They showed Jesus a gold piece and said to him: They who belong to Caesar demand tribute from us. He said to them: What belongs to Caesar give to Caesar, what belongs to God give to God, and what is mine give unto me.

100. They showed Jesus a gold piece and said to him: The emperor asks taxes from us. Jesus meant: Give everyone what they are asking and demanding. But stay honest, sincere and open in life, have respect and appreciation for all people. You don't have good and bad people, only people on the right positive path in life and people who are deviated from the right positive path in life. Work only at yourself and not on other people. Show people by informing and guiding them to the right positive path in life and let them make their own decisions.

(101) Jesus said He who shall not hate his father and: mother like me cannot be my [disciple], and he who shall [not] love [his father] and his mother like me cannot be my [disciple]; for my mother [. ..] but my true [mother] gave me life.

101. Jesus meant: Understand that your parents have taught you the ego perspective in your ratio and guided you away from your Soul. Understand that all people in life make mistakes and wrong decisions. Don't protect people by hiding the truth, but be always honest to yourself and others in life. Understand that you have as Soul unconditional love for everyone in life, even who makes your lives miserable and more negative. Because they provide you a service to give you new Lessons in Life to learn from. To learn how to deal with them positively. If you understand this, than you can be my student.

(102) And Jesus said: Woe to them, the Pharisees! For they are like a dog sleeping in the manger of the cattle; for he neither eats, nor does he let the cattle eat.

102. And Jesus meant: Be careful about the world leading managers and religious people, who tell you they know the construction of life. Listen to them, and than compare their believes with your believes and make up your own mind, what you want to believe. Search for your own truth in life, and you will find it. Only the ignorant people follow other people blindly in life.

(103) Jesus said: Blessed is the man who knows in what part the robbers are coming, that he may rise and gather his [domain] and gird up his loins before they come in.

103. Jesus meant: Blessed is the man, woman who found the Soul in him/herself. He/she will know when problems will come into his/her life and listen to the Souls voice, the conscience. The conscience is the voice of your Soul in the subconscious awareness and this will guide you always the right and positive path in life. Trust yourself and know that your Soul will protect you. All creations in your life are just creations. And you can create it always again.

(104) They said [to him]: Come, let us pray today and fast. Jesus said: What then is the sin that I have done, or wherein have I been vanquished? But when the bridegroom comes forth from the bridal chamber, then let them fast and pray.

104. They said to Jesus: Come, let us pray today and fast. Jesus meant: What did I do wrong to pray or to fast? Fasting is being not good for yourself. And praying is asking God for new experiences and help. And God will not intervene on the earthly plane. Because, we are here in our bodies and mind as a positive Soul to experience our own lives, to learn the Lessons of Life and to create new positive experiences in life. God is not responsible for our world or our future, we are! We create our future ourselves by what we are, think and do in life. We have to make all our decisions on the ground rule of the Soul, make only a decision in your life, what is good for yourself AND for all people in the world AND for nature. That is the only way to restore balance in yourself, balance between all people in the world and balance with nature.

(105) Jesus said: He who shall know father and mother shall be called the son of a harlot.

105. Jesus meant: Your life is your individual life. And you should never try to change your parents, or think you know your parents, that is not your business. You have only to work on yourself. And you should not follow the suggestions and perspective of your parents blindly. They have taught you a false ego perspective at the world. You should not think, that you are your parents, you are an individual in life and you will always be that individual that experience, learns and creates in life. You have to free yourself by honesty and sincereness and formulate your own truths in life. The truth will set your Soul free!

(106) Jesus said: When you make the two one, you shall become sons of man, and when you say: Mountain, be moved, it shall be moved.

106. Jesus meant: When you have the ego perspective and the Soul inside yourself. Change the ego perspective in the higher perspective of the Soul and become one Soul again. If you are your Soul you can create anything in life you desire.

(107) Jesus said: The kingdom is like a shepherd who had hundred sheep. One of them, the biggest, went astray. He left the ninety-nine and sought after the one till he found it. When he had laboured, he said to the sheep: I love thee more than the ninety-nine.

107. Jesus meant: When you do a lot of effort for people in life: children, friends, family, colleagues, this makes you not love this person more than others. As Soul we love all people in the world. And we love them unconditionally without what we do for a person. And we should not place any person above other persons in life, this divides people in life. And when we see all people as equals we connect ourselves in life.

(108) Jesus said: He who shall drink from my mouth shall become like me; I myself will become he, and the hidden thing shall be revealed to him.

108. Jesus meant: He or she who understands my words and live like me, will become me. And we will be equal to each other. And he or she will know everything what there is to know about the immaterial construction of life. And the Soul can solve all problems in life. There is nothing hidden for him/her, what he or she can't see.

(109) Jesus said: The kingdom is like a man who had in his field a [hidden] treasure about which he did not know; and [after] he died he left it to his [son. The] son also did not know; he took (possession of) that field and sold it. The man who bough it came to plough, and [found] the treasure. He began to lend money at interest to whomsoever he chose.

109. Jesus meant: The Soul is hidden in ourselves by our own ego perspective. And most people live their lives, without ever knowing the Soul or the existence of the Soul. Who will find their Soul can find true happiness, which almost no person in all generations has ever experienced. When we know our Soul we have to share it to the people, who have ears will find the positive path to enlightenment, the path to our Soul. Helping other people unconditionally, will

let you receive a lot of positive energy from other people and you will grow and expand into a higher positive awareness as Soul. That is what life is all about.

(110) Jesus said: He who has found the world and become rich, let him deny the world.

110. Jesus meant: The persons who has understands the apparently material world and became rich and powerful, let them deny the world to find the same path. Because in the apparently material world are not the answers for salvation. But in the immaterial world lies the answers to salvation. And it will be easier for people to go and find the real answers about life, when they have not a lot of money and power. Like said before, the last in the society, will be the first who will find their Soul and can enter Heaven. Or when you loose everything in life you have more possibilities to find your real life, as Soul.

(111) Jesus said: The Heavens shall be rolled up and the earth before your face, and he who lives in the living One shall neither see death nor (fear); because Jesus says: He who shall find himself, of him the world is not worthy.

111. Jesus meant: The apocalypse is a real threat to the human society. But he who is living as Soul, will not have: fears, nor worries, nor prejudgements nor experience negative emotions. Because Jesus meant: Who will find themselves as a Soul will be standing above the apparently material creation of earth. Still we have to make a choice in the future. Do you we stay fateful to our ego perspective and except our grim destiny, the apocalypse? Or do we embrace together our Souls and create a New World of Souls, our Heaven on earth?

(112) Jesus said: Woe to the flesh which depends upon the soul; woe to the soul which depends upon the flesh.

112. Jesus meant: Who believes that the body, mind and our apparently material world can be saved by the Soul is wrong. Who believes that the Soul can be saved by the body and mind and our apparently material world is wrong too. This means that our body, mind and even our apparently material world is just a creation for the Soul to experience, to learn from and to create in. The real life is only the immaterial life of the Soul and is not depending on the human host as body and mind. There is no correlation between the two. The Soul stands always on itself, that is your real life, your real life as Soul!

(113) His disciples said to him: On what day will the kingdom come? <Jesus said>: It cometh not with observation. They will not say: Lo, here! or: Lo, there! But the kingdom of the Father is spread out upon the earth, and men do not see it.

113. His disciples said to him: On what day the Souls will flourish. Jesus meant: It will never arrive when you wait on it. You have to start searching for it, as an individual journey in yourself, than you will find your Soul. All the Souls are in all human beings and even all awarenesses are spread around the world. There are different levels of awarenesses as life-forces in hosts on earth. The earth is an awareness, animals have an awareness, plants have an awareness, even one cell organism have an awareness and the humans have an awareness.

Each on different levels, but still the kingdom of God, are the energy life-forces from the immaterial dimension descended on earth in the hosts to experience this apparently material world. And all have the goal to create positive energy in the world. And the humans is the only species which creates more negativity than positivity on earth, and is responsible for the unbalance in the world. The unbalance in the world will lead to the apocalypse. This can only be changed if the humans starts to create more positivity than negativity in the world. More positivity in the world will create balance in the humans, between the humans and with nature. As soon as the balance with nature is restored the humans can create their own Heaven on earth, we call the New World of Souls.

(114) Simon Peter said to them: Let Mary go forth from among us, for women are not worthy of the life. Jesus said: Behold, I shall lead her, that I may make her male, in order that she also may become a living spirit like you males. For every woman who makes herself male shall enter into the kingdom of Heaven.

114. Simon Peter said to Jesus: Let Mary go away, woman are not worthy of life. Jesus did not say above underlined words! Jesus has already said that all people are equal, also to Salome, a woman. (Line 61) That means that men and women are equal. Jesus would have said and meant following:

The manly man and the female female are constructions from the ego perspective. If you are one as Soul, than you are neither of them. You are not male and not female. Because the Soul has no gender. In life you can choose what you want to experience and how you want to be. The only difference between a male and a female human are the genitals and procreation differences. Both hosts have an equal Soul and therefore the man and the woman is equal to each other! And every Soul will enter Heaven without a gender. Because your are pure positive energy as Soul and can never be male nor female. You have many lives and you will sometimes be a man and sometimes experience how it is to be a woman. If you like it or not. We only tell you the truth, nothing more and nothing less.

The most remarkable line was 114. Where you could see that someone changed the Words of Jesus. Perhaps Thomas, the writer of the Gospel or later the translators, to keep the women out of the decision makers seat. Women are equal to men, don't let anyone tell you different! That is why, we teach you also in our book, to form your own mind for yourselves. Don't believe blindly, what is written or what is told. Listen always and think about it, and compare it to your believes and find your truth of life!

APPENDIX I *Information about the knowledge we have to interpret the Gospel.
And the reason, why it is so important, to become our positive Soul.*

Five years ago, I devoted myself to want to help people full time. I started to be, think, and do positive all the time. It was just a choice I made, to be positive and happy all the time, no matter what would happen in my life. I helped people with healing, meditated a lot, and tried to do my best in life to give advice. All my life I had paranormal experiences, what placed me in a position to find slowly contacts with my spirit guides. I started my sail trip around the world 1,5 years ago to find new countries, interesting people and new experiences. One day, I arrived in England, in Plymouth, "Sutton Harbor". Where I stayed for a week, in a nice picturesque part of the city and with very friendly personal of the marina. I left my sail yacht and went into the city. Wandering true the small streets, I found a little shop, were a woman was laying tarot cards. For fun, I entered and she gave me a reading.

She asked me, do you think about writing a book? I said: "Writing a book me, no", "Perhaps much later in life". "I am not a writer". She said: "You are going to write a book!" and she told me more, what I would experience and I did. I left Plymouth with my sailboat, I coursed South East, to Spain, Portugal, Madeira, Carbo Verde Islands and crossed the Atlantic to Brazil. I started to brainstorm what kind of book, I could write and chose five subjects. And with one subject the information came so quickly in my mind, that I did not know what was happening. I realized that the spirit guides were giving me information. And I was amazed, because most information I received, I did not know. I did not have to think, it just appeared in my thoughts. So, I sat down behind my laptop and started to type. This is how the information comes to me. And most of the times, I really have no clue, about what I am writing, only afterwards, by reading it again, I really start to understand the knowledge. Therefore, I know this information for our Book is send, directly from my Spiritual Guides. If you believe it or not! Read the book and the knowledge, and than make up your own mind !

Sometimes I had no clue, where the information would lead me. And than the conclusion enfolded and I understood the information. Slowly I started to realize, what I had in my hands. A really unknown knowledge! More and more information came about the real immaterial and material construction of life, the path to enlightenment, the creation of the human, the Soul and even our material dimension and the Program of Life; to solve all problems in life and in the world. Everything about life, became very clear in this book. And the book grew in about one year to circa 702 A4 pages. And I knew that this is The Guide, for the human beings. And I could not find a better name, than the "THE SPIRITUAL BIBLE", 2015.

When I finished my first set up of the whole book. Other information came into my head and I felt that I should write another book. "The New World of Souls". And again a lot of information streamed down into my head, and I wrote a lot of new knowledge down, unto the early hours of the morning. Later, I understood, that I have to know also parts of this book, because I had to use it in the first book: "The Spiritual Bible". More about the book: "The New World of Souls" you can find in Appendix II. Both books will amaze you and have information from our spirit guides to guide us to create our wonderful life and a really heaven on Earth. By reading the book and doing the exercises, you will gain the higher perspective of the Soul!

For fun, I gave myself a new challenge, to see if the knowledge in our book had similarities with the knowledge Jesus knew in his time of life. Before, I wrote our book I tried to understand the Gospel of Thomas and I could not really understand it. Now, with the understanding of our book, I did not only try to understand it, but I was also able to interpret the alleged words of Jesus Christ from the Gospel of Thomas. And It was not difficult for me and that amazed me. The astonishing conclusion was that over thousands of years, nothing has changed. In other words, the apparently material world can change by evolution, but the real immaterial construction of our lives remain the same! And we never understood how life, was meant to be.

Your body is completely made for your Soul and not for the ego perspective in our ratio. Our emotions, body, conscience, aura and signals in life, guide us to be in line with our pure positive Soul. We are not living our lives, as it was meant to be. Our ego perspective created negativity and unbalance in our lives and in our world!

Look at the world honestly and observe how: violent, cruel, dangerous, negative and manipulative the world has become. We became immune for the negativity in the world and we can't observe the world honestly anymore. We turn rather our heads and look another way. And we can't manage our greed, our fears and worries and we are not willing to look at our choices honestly. We have created a hell on earth, and we justify our negative choices daily with our ego perspective. Instead of learning from the negativity and change it into positive thoughts and positive situations.

The humans have created so much negativity instead of positive energy that the world is coming slowly to an end. And the last creation humans have planned for the world is the explosion of the worldwide economical crisis, followed by World War III. This will create so much suffering, fears and worries for all people in the world that the frequency of negativity has reached the final step. The earth will restore balance by wiping out the destructive human race, by shifting the poles and reconstruct earth. And humans above and below the ground will die, and the humans have destroyed themselves again. There is one way to save the human race, The Only Choice Left !

1. When we do not change and keep our ego perspective in our ratio, than we have to accept our grim destiny, the apocalypse will happen! This is not a threat but a fact.

Or

2. We change our ego perspective into our higher perspective of our Soul. We need urgently to have more Souls on earth in the human body, to make the right positive decisions in life. We have to create more positivity, than negativity in our lives, to restore balance in ourself and with all people in the world, and balance with nature.

The spirit guides want to prevent suffering on earth for everyone! The spirit guides have informed Thomas Francisco Pelgero as Medium, the knowledge in "Spiritual Bible", 2015, which is a detailed guide to change easily the perspective of the humans. It explains all there is to know about the real construction of life, it answers all the questions you have about life, it describes the easy path to find your Soul. And on top of that, it shows you how to solve all problems in your life and in the world! This book contains unknown knowledge in simple detailed words, to help us survive! By reading the book and doing all exercises, you will let your ego perspective go and embrace your Soul. Read, try and see our knowledge in life and than use it, enjoy!!

The spirit guides informs us in this book, how exactly, we can change our present world into a New World of Souls. In part II we will describe honestly how our world is really organized today. And in the last part III, we will describe in detailed phases, how we really can create our present world into a New World of Souls. This includes changes in our perspectives and desires for new reorganizations in the area of: upbringing, education, economy, employment, justice, government, healthcare, industry, infrastructure, international cooperation, medicine, military, nature, science and many other subjects.
